Dear Shareholder:

2019 Annual General Meeting of GW Pharmaceuticals plc (the “AGM”)

This letter, the notice of the AGM set out in this document (the “Notice”) and associated materials for the AGM are being sent to you because, as of April 15, 2019 (being the latest practicable date before the circulation of this document), you are registered as a holder of ordinary shares in the register of members of the Company. However, this letter, the Notice and associated materials will also be available to holders of American Depositary Shares (“ADS”) and contain information relevant to holders of ADSs.

I am pleased to confirm that our AGM will take place at **10:00 a.m. London time (5:00 a.m. New York City time) on Thursday, June 13, 2019 at Chandos House, 2 Queen Anne Street, London W1G 9LQ, England**. The Notice is set out in this document and it contains the resolutions to be proposed at the AGM (the “Resolutions”).

Action to be taken by holders of ordinary shares in the Company

If you are a holder of ADSs, please ignore this section and refer instead to the section below “—*Holders of American Depositary Shares*”.

If you are a holder of ordinary shares in the Company and are planning to attend the AGM in person (or by way of corporate representative), it would be helpful if you could inform Pam Land on +44 (0)19 8061 0624 or Laura Fougman on +44 (0)20 7291 0555.

If you are unable to attend the AGM, you can still vote on the Resolutions by appointing a proxy. A form of proxy for use at the AGM is enclosed. You are advised to complete and return the form of proxy in accordance with the instructions printed on it and so as to arrive at the Company’s registrar, Link Asset Services, PXS1, 34 Beckenham Road, Beckenham, Kent BR3 4ZF, England as soon as possible but in any event by no later than **10:00 a.m. London time (5:00 a.m. New York City time) on Tuesday, June 11, 2019**.

You may also submit your proxy vote online at www.signalshares.com (see instructions on form of proxy) to arrive by no later than **10:00 a.m. London time (5:00 a.m. New York City time) on Tuesday, June 11, 2019**. The return of a form of proxy or the electronic appointment of a proxy does not preclude you from attending and voting at the AGM if you so wish.

In order to attend and vote at the AGM as an ordinary shareholder, you must continue to be registered as a holder of ordinary shares in the Company’s register of members as of 6:30 p.m. London time (1:30 p.m. New York City time) on Tuesday, June 11, 2019.

Therefore, if you sell or transfer your ordinary shares in the Company on or prior to June 11, 2019, your form of proxy can no longer be used and, if submitted (whether before or after you sell or transfer your ordinary shares), will be treated as invalid. Please pass this document to the person who arranged the sale or transfer for delivery to the purchaser or transferee. The purchaser or transferee should contact Adam George, Company Secretary to request a new form of proxy for its use.

Should you elect to convert your holding of ordinary shares in the capital of the Company into an interest in the capital of the Company represented by ADSs before the AGM, you will cease to be a holder of ordinary shares in your own name and will not be entitled to attend and vote at the AGM as an ordinary shareholder. You will also not be able to use the enclosed form of proxy. However, you may be able to exercise your vote as a holder of an interest in the capital of the Company represented by American Depositary Shares—please refer to the next section “—*Holders of American Depositary Shares*”.

Holders of American Depositary Shares

In order to exercise your vote as a holder of an interest in the capital of the Company represented by ADSs, you or your bank, broker or nominee must be registered as a holder of ADSs in the ADS register **by 5:00 p.m. New York City time on Tuesday, April 16, 2019 (the record date for ADS holders)**.

If you hold ADSs through a bank, broker or nominee on April 16, 2019, the AGM documentation, including the ADS proxy card, will be sent to your broker who should forward the materials to you. Please reach out to your broker to provide your voting instructions.

Please note that ADS proxy cards submitted by ADS holders must be received by Citibank, N.A. **on or before 10:00 A.M. (New York City time) on the Deadline: June 10, 2019**.

11. To authorize the directors, generally and unconditionally for the purpose of s551 of the U.K. Companies Act 2006 to allot shares in the Company or to grant rights to subscribe for or to convert any security into shares in the Company (“Rights”) up to a maximum aggregate nominal amount of £123,000, being approximately 33% of the Company’s issued ordinary share capital at April 15, 2019, to such persons at such times and upon such conditions as the directors may determine (subject to the Company’s articles of association). This power:

(a) shall be limited to the allotment of equity securities for cash up to a maximum aggregate nominal value of £73,750, being approximately 20% of the Company’s issued ordinary share capital at April 15, 2019;

(b) expires at the same time as the authority conferred by Resolution 11, but so that the Company may, before this power expires, make an offer or agreement which would or might require equity securities to be allotted or rights to be granted after it expires and the directors may allot equity securities in pursuance of such offer or agreement as if this power had not expired; and

(c) applies in relation to a sale of shares which is an allotment of equity securities by virtue of s560(3) of the U.K. Companies Act 2006 as if in the first paragraph of this resolution the words “pursuant to the general authority conferred on them by Resolution 11” were omitted.

For the purposes of this resolution, references to the allotment of equity securities shall be interpreted in accordance with s560 of the U.K. Companies Act 2006.

Proposals No. 1 through 11 will be proposed as ordinary resolutions and under English law, assuming that a quorum is present, an ordinary resolution is passed on a show of hands if it is approved by a simple majority (more than 50%) of the votes cast by shareholders present (in person or by proxy) at the meeting and entitled to vote. If a poll is demanded, an ordinary resolution is passed if it is approved by holders representing a simple majority of the total voting rights of shareholders present (in person or by proxy) who (being entitled to vote) vote on the resolution. Proposal 12 will be proposed as a special resolution. Special resolutions require the affirmative vote of not less than 75% of the votes cast by shareholders present (in person or by proxy) at the meeting and entitled to vote. December 31, 2018, approval of the compensation of our named executive officers for the 15-month period ended December 31, 2018, advisory votes on the preferred frequency of future votes on executive compensation and receipt of our 2018 U.K. Annual Report will not require our Board of Directors or any committee thereof to take any action. Our Board of Directors values the opinions of our shareholders as expressed through such votes and will carefully consider the outcome of the votes on Proposals No. 3, 4, 6 and 10.

The results of any polls taken on the resolutions at the AGM and any other information required by the U.K. Companies Act 2006 will be made available on our website (<http://www.gwpharm.com>) as soon as reasonably practicable following the AGM and for the required period thereafter.

Notes

- (1) Any member entitled to attend, speak and vote at the AGM may appoint one or more proxies to attend, speak and vote on his/her behalf. A proxy need not be a member of the Company but must attend the meeting. A member may appoint more than one proxy in relation to the AGM provided that each proxy is appointed to exercise the rights attached to a different share or shares held by that member. To appoint more than one proxy you should contact the Company's registrar, Link Asset Services, at the address below.
- (2) Only those members registered in the register of members of the Company as at 6:30 p.m. London time (1:30 p.m. New York City time) on June 11, 2019 or, in the event that the meeting is adjourned, in such register not later than 48 hours before the time of the adjourned meeting, shall be entitled to attend, or vote (whether in person or by proxy) at the meeting in respect of the number of shares registered in their names at the relevant time.
- (3) A form of proxy has been provided for use by members. To be valid it should be completed, signed and delivered (together with the power of attorney or other authority (if any) under which it is signed, or a notarially certified copy of such power or authority) to the Company's Registrars, Link Asset Services, PXS1, 34 Beckenham Road, Beckenham, Kent BR3 4ZF, not later than 48 hours (not including non-business days) before the time appointed for holding the AGM or any adjourned meeting or, in the case of a poll taken more than 48 hours after it is demanded, not less than 24 hours before the time appointed for the taking of the poll.
- (4) In the case of a corporation, the form of proxy must be executed under its common seal or signed on its behalf by an attorney or a duly authorized officer of the corporation. A corporation which is a member can appoint one or more corporate representatives who may exercise on its behalf all its powers as a member provided that they do not do so in relation to the same shares.
- (5) In the case of joint holders, the vote of the senior who tenders a vote whether in person or by proxy will be accepted to the exclusion of the votes of any other joint holders. For these purposes, seniority shall be determined by the order in which the names stand in the Company's relevant register of members for the certificated or uncertificated shares of the Company (as the case may be) in respect of the joint holding.
- (6) CREST members who wish to appoint a proxy or proxies by using the CREST electronic proxy appointment service may do so for the AGM and any adjournments of it by utilizing the procedures described in the CREST Manual. The message (a CREST proxy instruction) must be properly authenticated in accordance with the specifications of Euroclear UK & Ireland Limited ("EUI") and must contain the information required for such instructions, as described in the CREST Manual. The message, regardless of whether it relates to the appointment of a proxy or to an amendment to the instruction given to a previously appointed proxy, must, in order to be valid, be transmitted so as to be received by the Company's registrar, Link Asset Services (ID RA10) not later than the time stated in Note (3) above. For this purpose, the time of receipt will be taken to be the time (as determined by the time stamp applied to the message by the CREST Applications Host) from which the Company's registrar is able to retrieve the message by enquiry to CREST in the manner prescribed by EUI.

CREST members and, where applicable, their CREST sponsors or voting service providers should note that EUI does not make available special procedures for any particular messages. Normal system timings and limitations will therefore apply in relation to the input of CREST proxy instructions. It is the responsibility of the CREST member concerned to take (or, if the CREST member is a CREST personal member or sponsored member or has appointed a voting service provider, to procure that its CREST sponsor or voting service provider takes) such action as shall be necessary to ensure that a message is transmitted by any particular time. Reference should be made to those sections of the CREST Manual concerning practical limitations of the CREST system and timings.

The Company may treat as invalid a CREST proxy instruction in the circumstances set out in Regulation 35(5)(a) of the Uncertificated Securities Regulations 2001.

- (7) The completion and return of a form of proxy will not preclude a member from attending in person at the meeting and voting should he/she wish to do so, but if a member appoints a proxy and attends the meeting in

[Table of Contents](#)

person, the proxy appointment will automatically be terminated. Further, the appointment under the form of proxy may be terminated by the member prior to the commencement of the meeting (or any adjournment of the meeting). To be valid, the notice of termination of the authority of the person appointed to act as proxy must be deposited at the offices of the Company's registrar, Link Asset Services, PXS1, 34 Beckenham Road, Beckenham, Kent BR3 4ZF, not less than 48 hours (not including non-business days) before the time fixed for the holding of the AGM or any adjournment thereof (as the case may be).

- (8) Under Section 527 of the U.K. Companies Act 2006 ("CA 2006"), members meeting the threshold requirement set out in that section have the right to require the Company to publish on a website a statement setting out any matter relating to: (a) the audit of the Company's accounts (including the auditor's report and the conduct of the audit) that are to be laid before the AGM; or (b) any circumstance connected with an auditor of the Company ceasing to hold office since the previous meeting at which annual accounts and reports were laid in accordance with Section 437 of the CA 2006.
- (9) The Company may not require the members requesting any such website publication to pay its expenses in complying with Sections 527 or 528 of the CA 2006. Where the Company is required to place a statement on a website under Section 527 of the CA 2006, it must forward the statement to the Company's auditor not later than the time when it makes the statement available on the website. The business which may be dealt with at the AGM includes any statement that the Company has been required, under Section 527 of the CA 2006, to publish on a website.
- (10) Copies of the Directors' service contracts and letters of appointment for non-executive directors will be available for inspection at the registered office of the Company at Sovereign House, Vision Park, Chivers Way, Histon, Cambridge, CB24 9BZ, United Kingdom during normal business hours on any week day (public holidays excepted) from the date of this Notice of AGM until the date of the AGM, and at the place of the AGM for one hour before the meeting and at the meeting itself.
- (11) As of April 15, 2019 (being the last practicable date before circulation of this Notice), the Company's issued ordinary share capital consisted of 368,625,000 ordinary shares, carrying one vote each. Therefore, the total voting rights in the Company as of that date are 368,625,000 votes.
- (12) Except as set out in the notes to this Notice, any communication with the Company in relation to the AGM, including in relation to proxies, should be sent to the Company's Registrar, Link Asset Services, PXS1, 34 Beckenham Road, Beckenham, Kent BR3 4ZF, England. No other means of communication will be accepted. In particular, you may not use any electronic address provided either in this notice or in any related documents to communicate with the Company for any purpose other than those expressly stated.

What are the requirements to elect the directors and approve each of the proposals?

You may cast your vote for or against Proposals No. 1 through 12 or abstain from voting your shares on one or more of these proposals.

Proposals No. 1 through 11 will be proposed as ordinary resolutions. Proposal No. 12 will be proposed as a special resolution. Under English law, assuming that a quorum is present, an ordinary resolution is passed on a show of hands if it is approved by a simple majority (more than 50%) of the votes cast by shareholders present (in person or by proxy) at the Meeting and entitled to vote. If a poll is demanded, an ordinary resolution is passed if it is approved by holders representing a simple majority of the total voting rights of shareholders present (in person or by proxy) who (being entitled to vote) vote on the resolution. Special resolutions require the affirmative vote of not less than 75% of the votes cast by shareholders present (in person or by proxy) at the Meeting and entitled to vote. On a poll, a special resolution is passed if it is approved by holders representing not less than 75% of the total voting rights of shareholders present (in person or by proxy) who (being entitled to vote) vote on the resolution.

The result of the shareholder votes on the ordinary resolutions in Proposals No. 3, 4, 6 and 10 regarding approval of our U.K. statutory directors' annual report on remuneration for the 15-month period ended December 31, 2018, approval of the compensation of our named executive officers for the 15-month period ended December 31, 2018, advisory votes on the preferred frequency of future votes on executive compensation and receipt of our Directors' and Auditors' Reports and Statement of Accounts for the 15-month period ended December 31, 2018 ("2018 U.K. Annual Report") will not require our Board of Directors or any committee thereof to take any action. Nonetheless, our Board of Directors values the opinions of our shareholders as expressed through such votes and will carefully consider the outcome of the votes on Proposals No. 3, 4, 6 and 10.

What constitutes a quorum?

For the purposes of the Meeting, a quorum will be present if (i) there are two persons present and entitled to vote upon the business to be transacted, each being either a shareholder or a proxy for a shareholder or a duly authorized representative of a corporation that is a shareholder, and (ii) such two persons together hold (or are the representative or proxy of members in relation to the meeting holding) at least one-third in number of the issued shares entitled to vote on the business to be transacted.

If you are an ordinary shareholder of record (i.e., registered as a holder of ordinary shares in the Company's register of members), your shares will be counted towards the quorum only if you are present in person or represented by proxy at the Meeting. If you are a beneficial owner of ordinary shares held in an account at a brokerage firm, bank or other similar organization your shares will be counted towards the quorum if your broker or nominee submits a proxy for those shares and the proxy represents the holder at the Meeting. A member represented by a proxy at the Meeting will be counted towards the quorum requirement even where the proxy abstains from voting. If a form of proxy does not instruct the proxy how to vote, the proxy may vote as he or she sees fit or abstain in relation to any business of the Meeting, but the member represented by that proxy at the Meeting will be counted towards the quorum requirement. If there is no quorum, the Meeting will stand adjourned to such time, date and place as may be fixed by the chairperson of the Meeting (being not less than 10 days later), and, if a quorum is not present at the adjourned meeting, the Meeting will be dissolved.

How do I vote my shares?

If you are an ordinary "shareholder of record", you may attend the Meeting in person or you may appoint a proxy to vote on your behalf:

- By completing and signing the form of proxy and returning it in the envelope provided; or
- By submitting your proxy online at www.signalshares.com (see instructions on form of proxy). All proxies (however submitted) must be lodged with our registrar (Link Asset Services) by no later than **10:00 a.m. London time (5:00 a.m. New York City time) on Tuesday, June 11, 2019.**

If you properly give instructions as to your proxy appointment by executing and returning a form of proxy, or by submitting your proxy online, and your proxy appointment is not subsequently revoked, your shares will be voted in accordance with your instructions.

If your ordinary shares are held in an account at a brokerage firm, bank or similar organization, you should follow directions provided by your broker, bank or other nominee.

How will my shares be voted if I do not specify how they should be voted?

If you sign and send your form of proxy but do not indicate how you want your shares to be voted, your shares may be voted by the person that you appoint as your proxy as he or she sees fit or such person may abstain in relation to any business of the Meeting.

Can I change my vote or revoke a proxy?

A registered shareholder can revoke his or her proxy before the time of voting at the Meeting in several ways by:

- (1) mailing a revised form of proxy dated later than the prior form of proxy;
- (2) voting in person at the Meeting; or
- (3) notifying the Company Secretary in writing that you are revoking your proxy. Your revocation must be received at our registered office before the Meeting to be effective.

If your ordinary shares are held in an account at a brokerage firm, bank or similar organization, you may change or revoke your voting instructions by contacting the broker, bank or other nominee holding the shares or by your broker, bank or other nominee validly appointing you as proxy to attend at the Meeting. See also "What if I plan to attend the Meeting?"

Who counts the votes?

Link Asset Services has been engaged as our independent agent to tabulate shareholder votes. If you are an ordinary shareholder of record, you can return your executed form of proxy to Link Asset Services for tabulation or directly submit your proxy online to Link Asset Services at www.signalshares.com (see instructions on form of proxy).

If you hold your ordinary shares through a broker, your broker will return the form of proxy to Link Asset Services or directly submit your proxy to Link Asset Services online.

If you are a holder of record of ADSs, you can return your executed ADS proxy card to Citibank, N.A. for tabulation. If you hold your ADSs through a broker, bank or other organization, that organization can return the ADS proxy card to Citibank, N.A. following your instruction. Citibank, N.A. will submit your votes to Link Asset Services for tabulation.

[Table of Contents](#)

How are votes counted?

Votes will be counted by Link Asset Services, who will separately count “for” and “against” votes, and “votes withheld” or abstentions.

How many votes do I have?

On a show of hands, each ordinary shareholder of record present in person, and each duly authorized representative present in person of a shareholder that is a corporation, has one vote. On a show of hands, each proxy present in person who has been duly appointed by one or more shareholders has one vote, but a proxy has one vote for and one vote against a resolution if, in certain circumstances, the proxy is instructed by more than one shareholder to vote in different ways on a resolution. On a poll, each shareholder present in person or by proxy or (being a corporation) by a duly authorized representative has one vote for each share held by the shareholder.

What if I plan to attend the Meeting?

Attendance at the Meeting will be limited to ordinary shareholders of record as of 6:30 p.m. London time (1:30 p.m. New York City time) on Tuesday, June 11, 2019. In order to obtain admittance to the Meeting each shareholder may be asked to present valid picture identification, such as a driver’s license or passport. If your ordinary shares are held through brokerage accounts or by a bank or other nominee, you may be able to attend at the discretion of the Chairman.

How do you solicit proxies?

We will solicit proxies and will bear the entire cost of this solicitation. The initial solicitation of proxies may be supplemented by additional mail communications and by telephone, fax, e-mail, internet and personal solicitation by our directors, officers or other employees. No additional compensation for soliciting proxies will be paid to our directors, officers or other employees for their proxy solicitation efforts. We also reimburse Citibank, N.A. for their expenses in sending materials, including ADS proxy cards, to ADS holders of record.

What do I do if I receive more than one notice or form of proxy?

If you hold your ordinary shares in more than one account, you will receive a form of proxy for each account. To ensure that all of your shares are voted, please sign, date and return all forms of proxy. Please be sure to vote all of your shares.

Will there be any other business conducted at the Meeting?

No. In accordance with our Articles of Association, no matters other than Proposals No. 1 through 12 may be presented at this Meeting. We have not been notified of, and our Board of Directors is not aware of, any other matters to be presented for action at the Meeting.

What is Link Asset Services’ role?

ELECTION OF DIRECTORS

Our Board of Directors currently consists of eight Directors.

The Company's Articles of Association (the "Articles") require that any Director appointed by the Directors since our 2018 annual general meeting must retire from office and offer themselves for re-election. On this occasion, no Directors have been appointed as a Director since our 2018 annual general meeting.

The Articles also require one-third (or such number nearest to but not exceeding one-third) of the Company's Directors who are subject to retirement by rotation to retire from office at each annual general meeting. James Noble and Thomas Lynch will on this occasion retire from office and stand for re-election by the shareholders.

Having carried out evaluations of the individual performances of Mr. Noble and Mr. Lynch with the support of the Nominations and Governance Committee, the Board of Directors is satisfied that their performance continues to be effective and that they continue to demonstrate commitment to their role. The Board of Directors considers that it is entirely appropriate for Mr. Noble and Mr. Lynch to seek re-election at the AGM.

Mr. Noble and Mr. Lynch have been nominated for re-election and no other nominees for directors have been presented. Therefore, it is anticipated that following the AGM, if Mr. Noble and Mr. Lynch are re-elected, our Board of Directors will be comprised of eight members.

In connection with Proposal No. 1 and Proposal No. 2, we set forth the biographical information for each nominee to our Board of Directors. For biographical information for the other Directors see *Board of Directors and Corporate Governance*.

PROPOSAL 1—RE-ELECTION OF JAMES NOBLE TO THE BOARD OF DIRECTORS

Mr. James Noble is currently a member of our Board of Directors and has been nominated for re-election as a director. If elected, he will hold office from the date of his election until the next occasion on which he must retire by rotation under the Articles and offer himself for re-election, or until his earlier death, resignation or removal. Mr. Noble has agreed to serve if elected, and we have no reason to believe that he will be unable to serve.

Mr. Noble, 60, has served as a non-executive Director since January 2007. Mr. Noble has extensive experience in the biotech industry. He has served as chief executive officer and a director of Adaptimmune Therapeutics plc, a Nasdaq-listed company (ADAP) involved in T-cell therapeutics, since 2008. Mr. Noble was previously chief executive officer of Avidex Limited, a private biotech company. Mr. Noble was chief executive officer of Immunocore Limited from July 2008 until March 2014, and served as a non-executive director of

[Table of Contents](#)

Immunocore Limited until July 2015. Mr. Noble qualified as a chartered accountant with PricewaterhouseCoopers in 1983 and then spent seven years at investment bank Kleinwort Benson Limited, where he became a director in 1990. He then joined British Biotech plc as chief financial officer and secured the company's initial public offering on Nasdaq and London Stock Exchange in 1992. From 1997 to 2001, he held numerous non-executive director positions, including at PowderJect Pharmaceuticals plc, Oxford GlycoSciences plc, MediGene AG, and Advanced Medical Solutions plc. Mr. Noble graduated from Oxford in 1980 and received a MA degree in Modern Languages from Oxford University.

Based on Mr. Noble's global business management and pharmaceutical expertise from his directorship experience in international public companies as well as his executive roles in various pharmaceutical companies, the Nominations and Governance Committee concluded that Mr. Noble is qualified to serve on our Board of Directors.

PROPOSAL 2—RE-ELECTION OF THOMAS LYNCH TO THE BOARD OF DIRECTORS

Mr. Thomas Lynch, 62, is currently a member of our Board of Directors and has been nominated for re-election as a director. If elected, he will hold office from the date of his election until the next occasion on which he must retire by rotation under the Articles and offer himself for re-election, or until his earlier death, resignation or removal. Mr. Lynch has agreed to serve if elected, and we have no reason to believe that he will be unable to serve.

Thomas Lynch has served as a non-executive Director since 2010. Mr. Lynch is currently a director of Profectus Biosciences Inc., Adherium Inc. and Aerogen Limited, and has, since November 2015, served as chairman of the board of Evofem Biosciences Inc., a Nasdaq-listed biopharmaceutical company (EVFM). He is also chairman of the Ireland East Hospital Group and the Mater Misericordiae University Hospital. Mr. Lynch serves on the board of directors of a number of other privately held biotechnology companies. Mr. Lynch previously served as chairman of Icon plc and was a member of its board of directors for 22 years. Mr. Lynch has also worked in a variety of capacities in Amarin Corporation plc, Elan Corporation plc and Warner Chilcott plc. From 2001 to 2010, Mr. Lynch was a member of the board of directors of IDA Ireland, an Irish government investment agency. Mr. Lynch qualified as a chartered accountant with KPMG in 1983 and served as a partner in that firm from 1990 to 1993.

Based on Mr. Lynch's decades of pharmaceutical expertise from his directorship experience in international public companies as well as his executive and non-executive roles in various pharmaceutical companies, the Nominations and Governance Committee concluded that Mr. Lynch is qualified to serve on our Board of Directors.

PROPOSAL 3—APPROVAL OF OUR U.K. STATUTORY DIRECTORS' ANNUAL REPORT ON REMUNERATION

The U.K. Companies Act 2006 (the "CA 2006") requires that the annual report on directors' remuneration, contained within the 2018 U.K. Annual Report, be subject to an annual advisory vote so that shareholders vote, by ordinary resolution, to approve directors' remuneration in the relevant financial year and how the remuneration policy will be implemented in the following financial year.

[Table of Contents](#)

The full text of the Company’s remuneration report is contained on pages 15 to 33 of the 2018 U.K. Annual Report and is set forth as *Annex A* to this proxy statement. The remuneration report sets out the Company’s policy towards, and gives details of, Directors’ remuneration and other relevant information. Shareholder approval of the Directors’ Remuneration Policy is the subject of Proposal No. 5.

The directors’ remuneration report includes the annual report on remuneration. This document describes in detail our remuneration policies and procedures and explains how these policies and procedures help to achieve our compensation objectives with regard to our directors and the retention of high-quality directors. Our Board of Directors and the Remuneration Committee believe that the policies and procedures as articulated in the directors’ remuneration report are effective and that as a result of these policies and procedures, we have and will continue to have high-quality directors. Our Board of Directors has approved and signed the report in accordance with English law.

At the Meeting, the shareholders will vote on the annual report on remuneration. This vote is advisory and non-binding. Although non-binding, our Board of Directors and Remuneration Committee will review and consider the voting results when making future decisions regarding our director remuneration program. Following the Meeting, and as required under English law, the directors’ annual report on remuneration will be delivered to the U.K. Registrar of Companies.

PROPOSAL 4—ADVISORY (NON-BINDING) VOTE TO APPROVE THE COMPANY’S EXECUTIVE COMPENSATION

The Dodd-Frank Wall Street Reform and Consumer Protection Act, as amended, and Section 14A of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), enable our shareholders to approve, on an advisory, non-binding basis, the compensation of our named executive officers as disclosed under the “Compensation Discussion and Analysis” section, the 2018 Summary Compensation Table and the related compensation tables, notes, and narrative in this proxy statement.

This Proposal, known as a “Say-on-Pay” Proposal, gives our shareholders the opportunity to express their views on our named executive officers’ compensation as a whole. This vote is not intended to address any specific item of compensation or any specific named executive officer, but rather the overall compensation of all of our named executive officers and the philosophy, policies and practices described in this proxy statement.

Our compensation programs are designed to support our business goals and promote our long-term profitable growth. Our equity plans are intended to align compensation with the long-term interests of our shareholders. We urge shareholders to read the “Compensation Discussion and Analysis”, which describes in more detail how our executive compensation policies and procedures operate and are designed to achieve our compensation objectives. We also encourage you to review the 2018 Summary Compensation Table and other related compensation tables and narratives, which provide detailed information on the compensation of our named executive officers. Our Board of Directors and the Remuneration Committee believe that the policies and procedures described and explained in the “Compensation Discussion and Analysis” are effective in achieving our goals.

The vote under this Proposal No. 4 is advisory, and therefore not binding on the Company, the Board of Directors or our Remuneration Committee. However, our Board of Directors and Remuneration Committee value the opinions of our shareholders and will review and consider the voting results when making future decisions regarding our executive compensation program.

Shareholders will be asked at the Meeting to approve the following resolution pursuant to this Proposal No. 4:

“**RESOLVED**, that the shareholders of the Company approve, on a non-binding, advisory basis, the compensation of the Company’s “named executive officers,” as disclosed in this proxy statement under the “Compensation Discussion and Analysis” section, the compensation tables and the narrative disclosures that accompany the compensation tables, for the 15-month period ended December 31, 2018.”

PROPOSAL 5—APPROVE DIRECTORS’ REMUNERATION POLICY ON PAGES 27 AND 31 OF THE 2018 U.K. ANNUAL REPORT

In accordance with the requirements of the CA 2006, as a U.K. resident company listed on a recognised stock exchange (Nasdaq), we are required to establish a Directors’ Remuneration Policy, containing a framework of limits within which the Remuneration Committee are authorized by shareholders to operate. The approved pay policy has to be annually disclosed within the remuneration report contained within the 2018 U.K. Annual Report, and this policy is required to be approved by shareholders at least every three years by the passing of an ordinary resolution at the annual general meeting.

Our Directors’ Remuneration Policy was originally established and approved by shareholders at the annual general meeting on March 14, 2015. Minor amendments to this policy were approved by shareholders at the annual general meeting on March 14, 2018. The Remuneration Committee has suggested minor amendments to the policy, and approval for the updated policy is now sought.

Highlights of our shareholder-approved remuneration policy include the following, all of which are explained in more detail in the Company’s remuneration report contained on pages 15 to 33 of the 2018 U.K. Annual Report.

- A meaningful portion of our executive directors’ compensation is linked to Company performance, consisting of annual short-term incentive awards and long-term equity incentive awards, which encourage achievement of strategy and align executive directors’ interests with those of our shareholders.
- The Remuneration Committee engages an outside compensation consultant to provide independent and objective advice to the Remuneration Committee regarding compensation decisions for our directors, and reviews market and peer company practices when making compensation decisions.
- Our executive directors’ short-term incentive awards are based on performance objectives linked to key milestones/metrics aimed at achieving our strategic plan and capped at a maximum of 150% of salary.
- Long-term incentive awards to executive directors generally vest over periods of three or more years and include awards that vest only upon pre-set milestone-based events directly linked to key business value drivers creating alignment with shareholders’ interests.
- We impose a limit on the long-term incentive awards that may be granted to any individual executive director in any one calendar year at 600% of salary.
- Contracts with executive directors provide for a maximum of 12 months’ notice in the event of termination of employment, and contracts with non-executive directors provide for a maximum of three months’ notice. This notice period arises from legacy UK employment contracts and is consistent with common market practice in the United Kingdom.

[Table of Contents](#)

- We maintain a “clawback” policy for the recovery of cash short-term incentive awards and equity-based long-term incentive awards that are awarded and/or vest based upon achievement of specific financial or operational goals.
- We have adopted an equity retention policy, under which executive directors are required to retain a proportion of each equity grant for five years from vesting of the award until an overall level of share ownership is achieved, which is four times the basic salary for our Chief Executive Officer and two times the basic salary for our other executive directors.
- We do not provide pension benefits or equity that vests based on achievement of financial or operational performance goals to our non-executive directors.

The changes to the policy which are being proposed by the Remuneration Committee are disclosed within the pay policy table set out on pages 28 to 29 of the 2018 U.K. Annual Report. All of the key limits, as summarised above, remain unchanged. The proposed change to the policy is to grant long-term incentive awards up to the 75th percentile of peer group data, in any one year. The Remuneration Committee believes that this level of limit provides an appropriate cap on future incentives while ensuring that the Committee has sufficient flexibility to grant future awards.

FOR APPROVAL OF OUR DIRECTORS' REMUNERATION POLICY
ON PAGES 27 AND 31 OF THE 2018 U.K. ANNUAL REPORT***

PROPOSAL 6—ADVISORY VOTE ON THE FREQUENCY OF FUTURE VOTES ON EXECUTIVE COMPENSATION

The Dodd-Frank Wall Street Reform and Consumer Protection Act, as amended, enables our shareholders to indicate, at least once every six years, how frequently we should seek a non-binding vote on the compensation of our named executive officers, as disclosed pursuant to the SEC’s compensation disclosure rules. By voting on this Proposal No. 6, shareholders may indicate whether they would prefer a non-binding vote on named executive officer compensation once every one, two, or three years.

Our Board of Directors believes that it is appropriate to give our shareholders the opportunity to provide regular input on our executive compensation program through an advisory vote. Accordingly, our Board of Directors recommends that you vote to hold an advisory vote on executive compensation every year.

We understand that our shareholders may have different views as to what is the best approach for the Company, and we look forward to hearing from our shareholders on this Proposal.

You may cast your vote on your preferred voting frequency by choosing the option of one year, two years, three years, or abstain from voting when you vote in response to the resolution set forth below:

“**RESOLVED**, that the shareholders determine, on a non-binding, advisory basis, that the preferred frequency of future shareholder advisory votes on the compensation of the Company’s named executive officers as disclosed pursuant to the compensation disclosure rules of the Securities and Exchange Commission, including the Compensation Discussion and Analysis, the compensation tables, and the other related disclosure, is ‘ONE YEAR.’”

The option of one year, two years, or three years that receives the highest number of votes cast by shareholders will be the frequency for the advisory vote on executive compensation that has been selected by shareholders. However, because this vote is advisory and not binding on the Company, our Remuneration Committee, or our Board of Directors, in any way, we may decide that it is in the best interests of our

[Table of Contents](#)

shareholders and the Company to hold an advisory vote on executive compensation more or less frequently than the vote frequency approved by our shareholders.

PROPOSAL 7—RATIFICATION OF THE APPOINTMENT OF DELOITTE & TOUCHE LLP AS OUR U.S. INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM FOR THE FISCAL YEAR ENDING DECEMBER 31, 2019

Proposal No. 7 seeks ratification of the appointment of Deloitte & Touche LLP (“Deloitte U.S.”) to serve as our U.S. independent registered public accounting firm for the fiscal year ending December 31, 2019.

Background to Proposal No. 7

Our Audit Committee has selected Deloitte U.S. as our U.S. independent registered public accounting firm for the fiscal year ending December 31, 2019, and has further directed that we submit the selection of Deloitte U.S. for approval by our shareholders at the Meeting.

The Audit Committee approves Deloitte U.S.’s and its affiliates’ audit and non-audit services in advance as required under Sarbanes-Oxley and SEC rules. Before the commencement of each fiscal year, the Audit Committee appoints the independent auditor to perform audit services that we expect to be performed for the fiscal year and appoints the auditor to perform audit-related, tax and other permitted non-audit services. In addition, our Audit Committee approves the terms of the engagement letter to be entered into by us with the independent auditor. The Audit Committee has also delegated to its chairman the authority, from time to time, to pre-approve audit-related and non-audit services not prohibited by law to be performed by our independent auditors and associated fees, provided that the chairman shall report any decisions to pre-approve such audit-related and non-audit services and fees to our full Audit Committee at its next regular meeting. Additional information concerning the Audit Committee and its activities can be found in the following sections of this proxy statement: “*Board Committees*” and “*Report of the Audit Committee*.”

Deloitte U.S. commenced auditing our annual financial statements with the fiscal year 2018. In prior periods, when the Company reported as a foreign private issuer, Deloitte LLP (“Deloitte U.K.”) served as principal auditor for the Company’s consolidated financial statements as reported on Form 20-F. Deloitte U.K. also served as the Company’s principal auditor for the audits of the consolidated financial statements for the years ended September 30, 2017 and 2016, prepared under accounting principles generally accepted in the United States of America.

Fees for Independent Registered Public Accounting Firm—Deloitte U.S. and Deloitte U.K.

The table below sets forth a summary of the fees billed to the Company by Deloitte U.S. and Deloitte U.K. for professional services rendered for the Transition Period and years ended September 30, 2018 and 2017. All such audit and audit-related services were pre-approved by the Audit Committee, which concluded that the provision of such services by Deloitte U.S. and Deloitte U.K. was compatible with the maintenance of that firm’s independence in the conduct of its auditing functions.

PROPOSAL 10—RESOLUTION TO RECEIVE AND ADOPT THE COMPANY’S 2018 U.K. ANNUAL REPORT

The CA 2006 requires the directors of a public company to lay before the company in general meeting copies of the directors’ reports, the independent auditors’ report and the audited financial statements of the company in respect of each financial year.

At the Meeting, our Board of Directors will present our 2018 U.K. Annual Report, which includes the audited portion of the directors’ annual report on remuneration. We will provide our shareholders with an opportunity to receive our 2018 U.K. Annual Report and to raise questions in relation to them.

In accordance with best practice, the Company proposes an ordinary resolution to receive, consider and adopt the 2018 U.K. Annual Report.

The 2018 U.K. Annual Report may be found in the “Investor Relations” section of the Company website at ir.gwpharm.com.

***THE BOARD OF DIRECTORS RECOMMENDS A VOTE
FOR THE RESOLUTION TO RECEIVE AND ADOPT THE COMPANY’S 2018 U.K. ANNUAL REPORT***

BACKGROUND TO PROPOSALS 11 AND 12

As a matter of U.K. company law, directors of a company incorporated in England must have authority from shareholders to allot or grant rights to subscribe for, or to convert any security into, the company's shares.

In addition, when an allotment of shares is for cash, the company must first offer those shares on the same terms to existing shareholders of the company on a pro-rata basis (commonly referred to as statutory pre-emption rights) unless these statutory pre-emption rights are dis-applied, by approval of the shareholders.

Proposals No. 11 and 12, which we refer to as our Share Issuance Proposals, ask our shareholders for authority for the directors to allot shares or grant rights over shares up to an aggregate nominal amount of £123,000 and the power for the directors to allot shares or grant rights over shares for cash up to an aggregate nominal amount of £73,750 on a non-preemptive basis. This authority and power would last for a period of one year.

Many of the companies with which we compete strategically are listed and incorporated in the United States, and are not subject to similar share issuance restrictions. We are asking you to approve our Share Issuance Proposals to allow us to continue to execute on our business and growth strategy in a timely and competitive manner.

We have no immediate plans, arrangements or understandings with respect to any share issuances pursuant to our Share Issuance Proposals.

While we would still have the ability to seek shareholder approval in connection with a specific issuance of shares, should our shareholders not approve Proposals No. 11 and 12, we do not believe that our ability to convene a general meeting of shareholders to approve each specific share issuance that we might seek to undertake in furtherance of future strategic transactions is a workable alternative to obtaining approval of Proposals No. 11 and 12. The uncertainty as to whether we could obtain shareholder approval for a specific issuance, as well as the delays we would experience in seeking and obtaining such approval, could be harmful to the terms of such a share issuance. In addition, the case-by-case approval approach ignores market windows and other deal timing and competitive realities.

Specifically, the requirement to first offer shares that we propose to issue for cash to all of our existing shareholders in time-consuming pro-rata rights offerings would considerably reduce the speed at which we could complete capital-raising activities undertaken in furtherance of our growth strategy, would increase our costs, might otherwise make it difficult for us to complete such transactions, and could put us at a distinct competitive disadvantage.

We believe that we have been successful in executing on our long-term business plan and growth strategy, while also creating value for our shareholders. Access to capital and the ability to raise new equity shareholder funds at short notice have been an important factor that has contributed to this success. In practice, offering shares to existing shareholders in accordance with U.K. statutory pre-emption rights can be time-consuming, so U.K. market practice for companies whose share capital is listed on the London Stock Exchange is annually to seek a shareholder resolution waiving or dis-applying pre-emption rights over new share issuances for cash, up to an agreed limit. For U.K. companies, this annual limit is often up to 5% of issued share capital on an unrestricted basis and an additional 5% in connection with an acquisition or specified capital investment, irrespective of the cash flows and funding needs of the business. For this reason, this proposal may attract a negative voting recommendation from certain proxy advisory firms. However, we have established a track record over the last six years of having secured shareholder support for an annual resolution dis-applying pre-emption rights over the equivalent of approximately 20% of our issued share capital. This recognizes the fact that as a development stage business, we have needed access to equity capital to ensure that we can maintain the business appropriately capitalized to enable us to pursue our research and development strategy. This year, having initiated the process

[Table of Contents](#)

of commercializing Epidiolex, we anticipate that future revenues will generate cash inflows that will help to moderate our future new equity capital needs, but we need to ensure that we retain the ability to raise equity capital at reasonably short notice if the need to do so should arise. We propose to seek a one-year authority to allot shares or grant rights over shares over the equivalent of 33% of our current issued share capital and under this authority to seek the power to allot shares or grant rights over shares for cash on a non-preemptive basis over the equivalent of 20% of our current issued share capital. This power to allot or grant rights over shares for cash is intended to encompass both future fundraisings (whether for capital investments, acquisitions or otherwise) and grants of rights in connection with our share incentive schemes. In the event that we wish to exceed the 20% limit in the next year, we would need to revert to shareholders to seek their pre-approval.

The Share Issuance Proposals are fully compliant with U.K. company law, consistent with U.S. capital markets practice and governance standards, and, if approved, will keep us on an equal footing with our peer companies who are incorporated and listed in the United States; we believe that the Share Issuance Proposals are appropriate to the needs of the Company and in the interests of shareholders. We are therefore asking you to approve the Share Issuance Proposals to allow us to continue to execute on our business and growth strategy in a timely and competitive manner.

Shareholder Outreach

A priority for our Board of Directors is listening to the views of our shareholders on a variety of topics, including our business and growth strategy and corporate governance practices. This year, we have solicited the views of a number of our major institutional investors. These discussions have been informative, and have helped ensure that the proposals are designed with shareholder interests in mind. During these discussions, our shareholders have generally been very supportive of our business and growth strategy. In discussions about the share issuance authorities that we must obtain as a matter of U.K. company law, shareholders have generally understood that renewal of our share issuance authorities is necessary to enable us to continue to execute our business and growth strategy in a timely and competitive manner.

Summary

The Share Issuance Proposals, if approved, will allow our Board of Directors continued flexibility to issue shares subject to shareholder approval and other requirements of Nasdaq Stock Market and the Securities and Exchange Commission. The renewal of the share issuance authorities, as proposed:

- will not exempt us from any Nasdaq corporate governance or other requirements, including those limiting the issuance of shares;
- will keep us on an equal footing with our peer companies who are incorporated and listed in the United States, while also fully complying with U.K. law; and
- is fully consistent with U.S. capital markets practice and governance standards.

The full details of the Share Issuance Proposals are set forth below.

PROPOSAL 11—AUTHORIZATION OF ALLOTMENT OF SHARES

Under U.K. company law, the Directors cannot allot shares in the Company, or grant rights to subscribe for, or to convert any security into shares in the Company, unless they are authorized to do so by shareholders in general meeting.

The Directors currently have an existing authority to allot shares in the Company and to grant rights to subscribe for or convert any securities into shares in the Company. This authority was given to the Directors at

Table of Contents

the last annual general meeting held in March 2018 and was in respect of shares with a nominal value of up to £101,000, representing at that time approximately 33% of the then issued share capital of the Company. This authority is due to expire at the forthcoming AGM on June 13, 2019. Since this authority was granted, the Company has completed, in October 2018, a single equity fundraising resulting in the issuance of 26.2 million new ordinary shares and raising net new equity proceeds of \$324.6 million, and has issued 3.7 million new ordinary shares pursuant to the exercise of share options by Company employees. The Directors believe that it is vitally important that they retain the flexibility needed to fund the business for the foreseeable future, as we may need to raise new equity funds to ensure the financial health of the business, invest in commercialisation infrastructure for Epidiolex, initially in the United States and Europe, and retain the ability to invest in the research and development of additional product candidates to further grow the business and create further value for shareholders. We therefore propose the grant of a new one-year authority, over the equivalent of 33% of the current issued share capital, at the forthcoming AGM.

Proposal No. 11 proposes that the Directors be generally and unconditionally authorized, in accordance with Section 551 of CA 2006, to exercise all the powers of the Company to allot shares in the Company or grant rights to subscribe for, or convert any security into, shares in the Company, up to a maximum nominal amount of £123,000.

This authority shall expire (unless previously revoked or varied by the Company in general meeting) at the conclusion of the 2020 annual general meeting of the Company or, if earlier, on June 13, 2020.

The Company may, before this authority expires, make an offer or agreement which would or might require shares to be allotted or rights to be granted after it expires, and the directors may allot shares or grant rights in pursuance of such offer or agreement as if this authority had not expired.

The existing authority conferred on directors under Section 551 of the CA 2006 at the annual general meeting held on March 14, 2018 shall cease to have effect but without prejudice to any allotment of shares or grant of rights over shares already made or offered or agreed to be made pursuant to such authority.

The grant of this authority will not exempt the Company from applicable Nasdaq requirements to obtain shareholder approval prior to certain share issuances or to comply with applicable Securities and Exchange Commission disclosure and other regulations. Our Board of Directors will continue to focus on and satisfy its fiduciary duties to our shareholders with respect to share issuances.

The Directors have no present intention of exercising this authority, but believe it is in the interests of shareholders for the Directors to have this flexibility to allot shares should circumstances and their intentions change.

**THE BOARD OF DIRECTORS RECOMMENDS A VOTE
FOR THE APPROVAL OF PROPOSAL NO. 11**

PROPOSAL 12—DISAPPLICATION OF PRE-EMPTION RIGHTS

As a U.K.-incorporated company, the Company's ordinary shareholders are entitled, under Section 561 of the CA 2006 to pre-emption rights, whereby, in the event that the Company wishes to allot new equity securities for cash, those securities must first be offered to existing shareholders in proportion to the number of ordinary shares they each hold before they can be offered to new shareholders.

In practice, the operation of such pre-emption rights can be time-consuming and result in additional expense to the cost of an equity fundraising. It has therefore been customary each year for the Board of Director to seek authority from our shareholders to dis-apply statutory pre-emption rights for cash issues of up to a certain

[Table of Contents](#)

proportion of the Company's issued share capital. **For each of the past six years, GW's shareholders have approved an annual disapplication of pre-emption rights over the equivalent of approximately 20% of the Company's issued share capital.**

With the Company solely listed on Nasdaq, and the Company's peers, key shareholders and primary target market being the United States, the Board of Directors is also mindful of the fact that pre-emption rights do not hinder equivalent U.S. companies from being able to execute equity fundraising. In the last few years, GW has successfully raised capital from investors in a rapid timeframe in order to develop Epidiolex and to continue to achieve significant value creation for shareholders. Prior to the commercial launch of Epidiolex, whilst we have no immediate plans to raise new equity, we need to maintain the ability to raise new equity funds to ensure the financial health of the business and to retain the ability to invest in further business growth.

Proposal No. 12 seeks the power for the Directors to allot equity securities or sell treasury shares in the capital of the Company pursuant to the authority conferred by Proposal No. 11 for cash without complying with the pre-emption rights in the CA 2006. The power will be limited to the allotment of equity securities and sales of treasury shares for cash up to a maximum aggregate nominal value of £73,750, being approximately 20% of the Company's issued ordinary share capital at April 15, 2019. The Board of Directors considers that, at this stage of the development of the Company, the ability to raise new equity funds at relatively short notice and at low cost is vital to the continuing financial health of the business. Access to capital has had a transformational effect on the business in the last five years enabling the Board of Directors to seize the opportunity to develop valuable medicines whilst retaining the full commercial rights to these products. We believe that it is in the best interests of the Company and our shareholders for the Board of Directors to seek to retain the ability to readily raise new equity funds at the appropriate time.

This Proposal will be required to be passed as a special resolution and, if passed, this power will expire at the same time as the authority conferred on the Directors under Proposal No. 11.

The Directors have no present intention of exercising this power, except in relation to the Company's share incentive schemes, but believe it is in the interests of shareholders for the Directors to have this flexibility to allot shares for cash otherwise than just in relation to the Company's share incentive schemes should circumstances and their intentions change.

If shareholders do not approve this Proposal No. 12, the Directors will generally not be able to issue any new shares for cash after June 13, 2019 on a non-preemptive basis, other than to employees pursuant to existing share option grants, without first seeking and obtaining shareholder approval for each such issuance by holding a general meeting. Case-by-case approval is considered to be an impractical approach which ignores market windows and other timing practicalities and could cause future uncertainty about our ability to obtain the shareholder approvals necessary to continue to maintain the financial health of the business and deploy capital appropriately to meet the strategic goals of the business that are in the best interests of shareholders.

Audit Committee and Audit Committee Financial Experts

Our Board of Directors has a separately designated Audit Committee. The members of the Audit Committee are James Noble (Chair), Thomas Lynch and Dr. Catherine Mackey.

The Audit Committee held eight meetings and took no actions by written consent during the twelve (12) months ended December 31, 2018. The duties and responsibilities of the Audit Committee are set forth in the Terms of Reference (“Audit Committee Terms of Reference”) of the Audit Committee which was recently reviewed by our Audit Committee. Our Audit Committee determined that no revisions needed to be made to the Audit Committee at this time. A copy of the Audit Committee Terms of Reference is available on our website, located at www.gwpharm.com. Among other things, the duties and responsibilities of the Audit Committee include reviewing and monitoring our financial statements and internal accounting procedures, the selection of our independent registered public accounting firm and consulting with and reviewing the services provided by our independent registered public accounting firm. Our Audit Committee has sole discretion over the retention, compensation, evaluation and oversight of our independent registered public accounting firm.

The SEC and Nasdaq have established rules and regulations regarding the composition of audit committees and the qualifications of audit committee members. Our Board of Directors has examined the composition of our Audit Committee and the qualifications of our Audit Committee members in light of the current rules and regulations governing audit committees. Based upon this examination, our Board of Directors has determined that each member of our Audit Committee is independent and is otherwise qualified to be a member of our Audit Committee in accordance with the rules of the SEC and Nasdaq.

Additionally, the SEC requires that at least one member of the Audit Committee have a “heightened” level of financial and accounting sophistication. Such a person is known as the “audit committee financial expert” under the SEC’s rules. Our Board of Directors has determined that Mr. Noble is an “audit committee financial expert,” as the SEC defines that term, and is an independent member of our Board of Directors and our Audit Committee.

Remuneration Committee

Our Remuneration Committee is currently composed of Thomas Lynch, Alicia Secor and Cabot Brown, with Mr. Lynch serving as chairman of the committee. Our Board of Directors has determined that each member of the Remuneration Committee is “independent” as defined under the applicable listing standards of Nasdaq. - link individual remuneration packages to the Company's short-term and long-term performance through the award of incentives via participation in the Company's cash and equity-based incentive schemes;
- provide post-retirement benefits through defined contribution pension schemes; and
- provide employment-related benefits including the provision of life assurance and medical assurance.

Nominations and Governance Committee

Our Nominations and Governance Committee is composed of Cabot Brown, James Noble and Lord William Waldegrave of North Hill, with Mr. Brown serving as chairman of the committee. Our Board of Directors has determined that each member of the Nominations and Governance Committee is "independent" as defined under the applicable listing standards of Nasdaq. Nominating Procedures

The Directors may appoint any person who is permitted by the applicable laws and willing to act to be a Director, either to fill a casual vacancy or as an additional Director but so that the total number of Directors does not exceed any maximum number fixed by or in accordance with our Articles of Association.

Other than in the case of a Director retiring at our annual general meeting and standing for re-election, candidates to stand for election as Directors at our annual general meeting of shareholders must either (i) be recommended by our Board of Directors or (ii) be proposed by written notice signed by a member (other than the person to be proposed) duly qualified to attend and vote at the meeting left at the registered office of the Company not less than seven nor more than 42 days before the date appointed for the annual general meeting of shareholders for which such notice is given of their intention to propose such person for election and also notice in writing must be given signed by the person to be proposed of their willingness to be elected and stating all

such details of the nominee as would, on their election, be required to be included in the Company's register of Directors and register of Directors' residential addresses. In addition, under the Companies Act, in order for a resolution proposed by shareholders to be moved at an annual general meeting of shareholders (whether to propose a candidate for election as a Director or otherwise), such proposal must have been requisitioned either by members representing 5% of the total voting rights of all members having a right to vote on such proposal at the annual general meeting of shareholders or by at least 100 members who have a right to vote on such proposal at the relevant annual general meeting of shareholders and who hold shares in the Company on which there has been paid up an average sum, per member, of at least £100. Such proposal must have been signed or otherwise authenticated by all requisitionists and submitted to the Company not later than (1) six weeks before the annual general meeting of shareholders to which the requests relate or (2) if later, the time at which notice of that meeting is given by the Company. Where certain conditions prescribed by section 153 of the Companies Act are met, the requisitionists may include persons who are not members but on whose behalf shares are held by a member.

Shareholders may recommend director nominees for consideration by the Nominations and Governance Committee by writing to our Company Secretary at the address below, or the Company's registered office address from time to time, and certain other requirements described under "Shareholder Proposals" below.

Following verification of the shareholder status of the person submitting the recommendation, all properly submitted recommendations will be promptly brought to the attention of the Nominations and Governance Committee. Shareholders who desire to nominate persons directly for election to the Board of Directors at an annual general meeting of shareholders must meet the deadlines and other requirements set forth under "Additional Information—Shareholder Proposals for 2020 Annual General Meeting." Any vacancies on the Board of Directors occurring between our annual general meetings of shareholders may be filled by persons selected by a majority of the directors then in office, in which case any director so elected will serve until the next annual general meeting of shareholders when such director will offer himself/herself for re-election, or by persons elected by an ordinary resolution of the shareholders of the Company.

SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

The following table and related footnotes describe, as of April 15, 2019, the beneficial ownership of our ordinary shares (and our ADSs, each of which represents 12 ordinary shares) by:

- each person we believe beneficially holds more than 5% of the outstanding ordinary shares based solely on our review of SEC filings;
- each of our named Executive Officers;
- each of our Directors; and
- all of our Executive Officers and Directors as a group.

Beneficial ownership is determined in accordance with the rules and regulations of the SEC. Under these rules, beneficial ownership includes any shares as to which a person has sole or shared voting power or investment power. In computing the number of ordinary shares beneficially owned by a person and the percentage ownership of that person, ordinary shares subject to options, or other rights held by such person that are currently exercisable or will become exercisable within 60 days of April 15, 2019 are considered outstanding. These ordinary shares, however, are not included in the computation of the percentage ownership of any other person. Applicable percentage ownership is based on 368,625,000 ordinary shares outstanding as of April 15, 2019.

Unless otherwise indicated, the address for each of the shareholders listed in the table below is c/o GW Pharmaceuticals plc, Sovereign House, Vision Park, Chivers Way, Histon, Cambridge, CB24 9BZ, United Kingdom.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

As of October 1, 2018, Section 16(a) of the Exchange Act requires our Directors and Executive Officers and persons who own more than 10% of our ordinary shares to file with the SEC initial reports of beneficial ownership and reports of changes in beneficial ownership of our ordinary shares. Prior to October 1, 2018, our Directors and Executive Officers and persons who own more than 10% of our ordinary shares were not required to comply with the reporting requirements of Section 16(a) because we were exempt from these requirements by virtue of being a “foreign private issuer.”

Based on a review of those reports and written representations that no other reports were required, we believe that our Directors and Executive Officers and persons who own more than 10% of our ordinary shares complied with all of their applicable Section 16(a) filing requirements.

TRANSACTIONS WITH RELATED PERSONS

Certain Relationships and Related Party Transactions

Other than the compensation arrangements described below under the section “Compensation Discussion and Analysis,” during the twelve (12) months ended December 31, 2018 through the date of this proxy statement, we were not a party to any transactions involving an amount exceeding \$120,000 between us and certain “related parties,” which are generally considered to be our Directors and Executive Officers, nominees for director, holders of 5% or more of our outstanding ordinary shares and members of their immediate families.

Approval of Related Party Transactions

We have adopted a related person transaction policy which sets forth our procedures for the identification, review, consideration and approval or ratification of related person transactions. For purposes of our policy only, a related person transaction is a transaction, arrangement or relationship, or any series of similar transactions, arrangements or relationships, in which we and any related person are, were or will be participants. Transactions involving compensation for services provided to us as an employee or director are not covered by this policy. A related person is any employee, director or beneficial owner of more than 3% of any class of our voting securities, including any of their immediate family members and any entity owned or controlled by such persons.

Under the policy, if a transaction has been identified as a related person transaction, including any transaction that was not a related person transaction when originally consummated or any transaction that was not initially identified as a related person transaction prior to consummation, our management must present information regarding the related person transaction to our Audit Committee, or, if Audit Committee approval would be inappropriate, to another independent body of our Board of Directors, for review, consideration and approval or ratification. The presentation must include a description of, among other things, the material facts, the interests, direct and indirect, of the related persons, the benefits to us of the transaction and whether the transaction is on terms that are comparable to the terms available to or from, as the case may be, an unrelated third party or to or from employees generally. Under the policy, we will collect information that we deem reasonably necessary from each Director, Executive Officer and, to the extent feasible, significant shareholder to enable us to identify any existing or potential related person transactions and to effectuate the terms of the policy. In addition, under our Code of Business Conduct and Ethics, our employees and directors have an affirmative responsibility to disclose any transaction or relationship that reasonably could be expected to give rise to a conflict of interest.

Compensation Philosophy and Objectives

Remuneration Policy

The Remuneration Committee sets up the Company’s Remuneration Policy which is designed to ensure that Executive Directors are appropriately incentivized and rewarded for their performance, responsibility and experience. The Remuneration Committee aims to ensure that the Remuneration Policy aligns the interests of Directors and Executive Officers with those of shareholders. The Remuneration Policy is designed to be competitive but aligned with accepted market practice in the United States. We consider that these design features are pivotal to our ability to offer competitive incentive packages in the markets that we compete and operate in.

During the year, the Remuneration Committee retained Willis Towers Watson to provide ongoing peer group remuneration competitive market analysis, option valuations and remuneration policy-related advice.

Remuneration Approach

Our Remuneration Policy for Executive Directors and Executive Officers aims to:

- align the interests of Executive Directors with those of shareholders;
- have regard to the individuals’ experience and the nature and complexity of their work in order to pay a competitive salary that attracts and retains management of the highest quality, while avoiding remunerating those Directors more than is necessary;
- link individual remuneration packages to our short-term and long-term performance through the award of incentives via participation in our cash and equity-based incentive schemes;
- provide post-retirement benefits through defined contribution pension schemes; and
- provide employment-related benefits, including the provision of life assurance and medical assurance.

We believe that these aims, which remain unchanged from previous years with the exception of a single change to the LTIP equity incentive limit described below, have been working well, continue to be relevant and

provide a firm framework within which future remuneration will be determined. The shareholder approved Remuneration Policy provides a set of parameters within which we work while still allowing the Remuneration Committee sufficient flexibility to adapt remuneration packages in line with the development of the business. This allows the Company to attract, retain and motivate Directors and Executive Officers with the skills, talent and motivation to deliver upon our strategy and to continue to create value for our shareholders.

Key Remuneration Committee Activities during the Twelve Months Ended December 31, 2018

During the twelve (12) months ended December 31, 2018, the Remuneration Committee's key activities have been as follows:

- We engaged Willis Towers Watson as independent advisers to conduct a competitive market analysis of the remuneration of the Directors against the selected peer group and to provide recommendations for basic salaries, Long Term Incentive Plan ("LTIP") awards and the structure of bonus incentive awards for the year. As the Company continues to grow in size and complexity, the Remuneration Committee requested that Willis Towers Watson review the peer group of comparable U.S.-listed biotech/pharmaceutical development companies. As the Company continues to grow in size and complexity, the Remuneration Committee requested that Willis Towers Watson review the peer group of comparable U.S.-listed biotech/pharmaceutical development companies to reflect our growth, market capitalization and the stage of our commercial development. Willis Towers Watson suggested biopharmaceutical companies that had a twelve-month trailing market capitalization of between \$1.5 billion to \$6 billion, revenue of less than \$100 million per annum and with fewer than 100 employees, applying a consultative review to arrive at a shortlist of potential additional peers based on industry and business description and organizations considered to be close competitors. This list was then subject to review, refinement and approval by the Remuneration Committee.
- Based on these criteria, Willis Towers Watson recommended, and our Committee approved, removing Horizon Pharma Public Limited Company, Depomed, Inc., and INSYS Therapeutics, Inc. (which no longer met the criteria described above) and Kite Pharma, Inc. and Ariad Pharmaceuticals, Inc. (which were acquired since the 2017 peer group company list was approved) and adding Clovis Oncology, Inc. and Spark Therapeutics, Inc. The latest peer group consists of 18 companies with a median market capitalization of \$3.36 billion. This peer group comprised ACADIA Pharmaceuticals Inc., Agios Pharmaceuticals Inc., Alder Biopharmaceuticals Inc., Alnylam Pharmaceuticals Inc., bluebird bio Inc., Clovis Oncology, Inc., Intercept Pharmaceuticals Inc., Juno Therapeutics Inc., Neurocrine Biosciences Inc., Pacira Pharmaceuticals Inc., Portola Pharmaceuticals Inc., Puma Biotechnology Inc., Radius Health Inc., Sage Therapeutics Inc., Sarepta Therapeutics Inc., Spark Therapeutics, Inc., Tesaro Inc. and Ultragenyx Pharmaceuticals Inc.
- In February 2018, the Remuneration Committee met to consider the basic salary increases to be awarded to Executive Officers. Inflationary increases had been given to the majority of our staff and the Executive Directors were given an inflationary basic salary increase of 3% effective from January 1, 2018. External competitive market analysis for the Chief Executive Officer and Chief Financial Officer were below the median of peer group data. The Remuneration Committee approved an increase in the Chief Executive Officer's basic salary to \$600,000 and the Chief Financial Officer's basic salary to \$400,000 effective from March 1, 2018.
- At the same time, the Remuneration Committee met to consider the extent of achievement of 2017 calendar year objectives by the Board of Directors and our management, which we refer to as our Executive Team, and to determine the level of short-term bonus incentive award to be paid in respect of the 2017 calendar year. The consensus was that 2017 had been a year of substantial progress with all material objectives having been achieved, well positioning the Company for FDA approval.

Under the 2017 bonus program, bonus incentive awards were determined by first establishing a bonus pool. The bonus pool was calculated by aggregating the target cash incentive awards for all eligible

[Table of Contents](#)

plan participants and then multiplying that sum by a modifier established by our Remuneration Committee based on our performance as measured against the 2017 company goals. The 2017 company goals approved by our Board of Directors and Remuneration Committee at the beginning of the were as follows:

2017 Company Goals

Successfully file Epidiolex NDA for Dravet syndrome and Lennox-Gastaut syndrome
Execute manufacturing scale-up strategy to meet projected commercial demand at launch
Develop Epidiolex life cycle strategy progressing solid dose, IV and improved oral formulations
Progress Epidiolex clinical strategy, initiating Phase 3 Tuberous Sclerosis study
Determine commercial regulatory strategy for Sativex in the United States
Maintain cash position to ensure two years of available cash at December 31, 2017
Build U.S. commercial organization
Establish Epidiolex commercialization and regulatory plan for Europe
Develop a Board-approved organizational design, including establishing key U.S.—based functions needed to support U.S. commercial operations
Progress other pipeline projects, including CBDV in epilepsy
Establish IT systems and compliance processes in readiness for U.S. launch

The bonus pool was then allocated among all of the plan participants in accordance with the terms of the 2017 annual bonus incentive program. For 2017, our Chief Executive Officer and Executive Team bonus incentive awards at target equated to 50% of 2017 basic salary and were based 75% on company goals and 25% on individual objectives.

Our Remuneration Committee assessed our performance and determined that we had met or exceeded each of our 2017 company goals and, after taking into consideration our substantial progress during the year that well positioned the Company for FDA approval approved an overall bonus award pool resulting in awards of 120% of target, equating to 60% of 2017 basic salary for those members of the Executive who had been employed for the entire calendar year. Those members of the Executive Team who joined during early 2017, being the Chief Medical Officer, Chief Financial Officer and Chief Legal Officer, were awarded a short-term incentive bonus award based upon 50% of their pro-rata basic salary.

- At the same time, the Remuneration Committee approved the objectives to be achieved by the Executive Directors during 2018. The approved objectives are primarily linked to FDA approval and the execution of Epidiolex's launch in the U.S. market. These were considered by the Remuneration Committee to be the key value drivers for the business and therefore represent the optimum objectives for Executive Team incentive schemes to be based upon in 2018.
- At the same time, the Remuneration Committee met and agreed the terms of the 2018 grant of LTIP awards to the Directors and Executive Officers. These were segmented so that (i) 50% of the value of the award is linked to rigorous performance conditions linked to Company key value drivers, which must be achieved in the three-year vesting period, (ii) half of the share options will vest upon U.S approval of Epidiolex by the FDA and half vest upon commercial launch in the United States, (iii) 25% of the value of the award is in the form of market-priced share options with a three-year vesting period, and (iv) 25% of the value of the award took the form of restricted stock options which vest at the rate of 25% per annum over a four-year vesting period.

The selected performance conditions that are required to be achieved in order to trigger vesting of 50% of this award are again considered to be directly linked to key business value drivers creating alignment

with shareholders' interests. The restricted stock option element of the award is considered to encourage long-term retention, considered to be a key factor critical to future success, and the market priced options are intended to align further the interests of the Executive Directors with shareholders' interests. The resulting mix is designed to create an appropriate balance of long-term incentives linked to value-driving objectives, aligned with shareholder value creation, whilst encouraging retention of the team considered to be a key success factor for the future.

At the grant date these awards had expected values at grant equivalent to 575% of basic salary for the Chief Executive Officer, 450% of basic salary for the Executive Chairman, 400% of basic salary for President, North America and Chief Financial Officer, 350% of basic salary for Chief Legal Officer and Chief Operating Officer and 300% for the Chief Medical Officer, and Managing Director, U.K.

- In November 2018, the Remuneration Committee met to consider the state of achievement of 2018 bonus objectives, to consider and approve the re-appointment of Willis Towers Watson as independent remuneration advisers to the Remuneration Committee for 2019 and to initiate a competitive market analysis refresh exercise. Finally, the Remuneration Committee considered the potential impact of the equity incentive award limit contained within the shareholder approved remuneration policy and the potential impact upon the committee's ability to provide market-competitive remuneration packages to the Chief Executive Officer and potential new senior executive officer hires in 2019.
- In February 2019, the Remuneration Committee met to consider the extent of achievement of 2018 calendar year objectives, and to determine the level of short-term bonus incentive award to be paid in respect of the 2018 calendar year.
- The consensus was that 2018 had been an exceptional year for the Company with the material key objectives having been achieved, including the Company's first FDA approval and subsequent U.S. commercial launch with Epidiolex, for treatment of Dravet syndrome and Lennox-Gastaut syndrome.
- Under the 2018 bonus program, bonus incentive awards were determined by first establishing a bonus pool. The bonus pool was calculated by aggregating the target cash incentive awards for all eligible plan participants and then multiplying that sum by a modifier established by our Remuneration Committee based on our performance as measured against the 2018 company goals. The 2018 company goals approved by our Board of Directors and Remuneration Committee, at the beginning of the year, were as follows:

2018 Company Goals

Achieve FDA regulatory approval of Epidiolex

Progress EU regulatory submission to support approval in 2019

Manufacturing sufficient inventory of Epidiolex to support commercial launch, and advance all steps necessary to meet long-term demand

Ensure organization and operational readiness to execute successful U.S. launch and progress EU launch preparations

Progress Epidiolex clinical strategy, completing close out of second Dravet syndrome clinical study and complete recruitment of Phase 3 Tuberous Sclerosis study

Formulate protocol and development plan for Sativex U.S. multiple sclerosis development

Implement comprehensive program of compliance policies to support U.S. and EU commercial launches

Successfully manage all elements of conversion to a U.S. domestic registrant, with effect from fiscal year ended September 30, 2018

Progress other pipeline projects, with particular focus on CBDV and CBD:THC

The bonus pool was then allocated among all of the plan participants in accordance with the terms of the 2018 annual bonus incentive program. Consistent with 2017, our Chief Executive Officer and Executive Team bonus incentive awards were based 75% on company goals and 25% on individual objectives.

[Table of Contents](#)

Our Remuneration Committee assessed our performance and determined that we had met or exceeded each of our 2018 Company goals and, after taking into consideration our pivotal FDA approval of Epidiolex in the United States, approved an overall bonus award paying 150% of target, equating to 75% of 2018 basic salary. The Remuneration Committee considered that the Chief Executive Officer, Chief Operating Officer and Chief Medical Officer deserved additional recognition in respect of their efforts towards the U.S. approval of Epidiolex. The Committee approved an overall bonus award paying 160% of target, equating to 80% of 2018 basic salary for these individuals.

Proposed Change to Remuneration Policy

The end of 2018 peer group refresh and competitive market analysis exercise conducted on behalf of the Remuneration Committee by our independent adviser, Willis Towers Watson, together with the recruitment activity that we have in progress seeking to appoint a new lead U.S. Commercial Officer to fill the role that will be vacated by Julian Gangolli upon his retirement in early 2019, have highlighted the fact that the current fixed equity incentive award annual limit, limiting the value of equity incentive awards to a fixed 600% of annual salary, has the potential to frustrate the Remuneration Committee's ability to maintain a market competitive remuneration package for the Chief Executive Officer and, potentially, the Remuneration Committee's ability to be able to offer market-competitive remuneration packages that will enable recruitment and retention of the best candidates for senior officer roles. With this in mind, the Remuneration Committee has consulted with independent advisers and has concluded that it is necessary to seek shareholder approval for a single amendment to the remuneration policy at the AGM to replace the existing fixed equity incentive limit with a limit that is based on peer group competitive market analysis data, whereby the value of GW's annual equity incentive awards to Directors and Executive Officers will not exceed the 75th percentile of peer group data. This is in-line with the approach that is currently taken with the policy limit for basic salary and should give the committee the flexibility needed to maintain market-competitive remuneration incentives structured similarly to those in use by peer group companies.

Roles in Determining Compensation

Remuneration Committee

In accordance with best practice, the Remuneration Committee, consisting of independent non-executive Directors, manages the remuneration of the Executive Directors within the framework of the shareholder approved Remuneration Policy and shareholder approved LTIP option scheme rules.

Risks Related to Compensation Policies and Practices

As part of the Board of Director's risk oversight role, our Remuneration Committee reviews and evaluates the risks associated with our compensation programs. Our Remuneration Committee has reviewed our compensation policies as generally applicable to our employees and believes that our policies do not encourage excessive and unnecessary risk-taking, and that the level of risk that they do encourage is not reasonably likely to have a material adverse effect on the Company. In making this determination, our Remuneration Committee considered the following:

- the Company's use of different types of compensation vehicles to provide a balance of long- and short-term incentives with fixed and variable components;
- the granting of equity-based awards with time-based vesting and performance-based vesting, both of which encourage participants to work towards long-term appreciation in equity values;
- the Company's annual bonus determinations for each employee and vesting of performance-based equity awards being tied to achievement of Company goals, which goals promote long-term value; and
- the Company's system of internal control over financial reporting and code of conduct and ethics, which, among other things, reduce the likelihood of manipulation of the Company's financial performance to enhance payments under any of its incentive plans.

Compensation Consultant

The Remuneration Committee retains the services of Willis Towers Watson as independent external compensation consultants. The mandate of the consultants includes assisting the Remuneration Committee in its review of executive and director compensation practices, including the competitiveness of pay levels, executive compensation design, and competitive market analysis with the Company's peers in the industry. The Remuneration Committee regularly evaluates the performance of its compensation consultants, considers alternative compensation consultants, and has the final authority to engage and terminate such services.

The Remuneration Committee has assessed the independence of Willis Towers Watson pursuant to SEC rules and concluded that no conflict of interest exists that would prevent Willis Towers Watson from serving as an independent consultant to the Remuneration Committee.

Chief Executive Officer

Our Chief Executive Officer attends Remuneration Committee meetings and works with the Remuneration Committee Chairman and its compensation consultants to develop compensation recommendations for Executive Officers (excluding the Chief Executive Officer) and other key executives, based upon individual experience and breadth of knowledge, internal considerations, individual performance during the fiscal year, and other factors deemed relevant by the Remuneration Committee. The recommendations are then submitted to the Remuneration Committee for review and consideration. The Remuneration Committee works directly with its compensation consultants to determine compensation actions for the Chief Executive Officer. In accordance with Nasdaq listing rules, our Chief Executive Officer is not present during voting or deliberations concerning his own compensation.

Say-on-Pay

In accordance with the requirements of Companies Act 2006, as a U.K. resident company listed on a recognized stock exchange, we are required to establish a Directors' Remuneration Policy, containing a framework of limits within which the Remuneration Committee are authorized by shareholders to operate. This is required to be approved by shareholders at least every three years, by the passing of an ordinary resolution at the annual general meeting of shareholders.

At the March 2018 annual general meeting of shareholders, a revised Remuneration Policy was presented to shareholders. This Remuneration Policy was supported by 81.4%, and the resolution was duly passed. Additionally, annually at our general meeting of shareholders, we hold a non-binding advisory vote regarding the compensation of our named Executive Officers.

The Remuneration Committee has considered and will continue to consider the outcome of such votes when making future compensation decisions for our named Executive Officers. The Remuneration Committee believes that the most relevant period of time to assess the performance of the Company's Chief Executive Officer is the period since our Nasdaq listing, which commenced in May 2013, during which the Company's ADS price significantly outperformed both its peer group and the Nasdaq Biotechnology Index as a whole. The Remuneration Committee also relies on advice from its compensation consultant, its evaluation of Company performance against pre-defined corporate goals, its understanding of the challenges facing the Company and its observations of executive officer performance to determine executive officer compensation.

At our last annual general meeting of shareholders in March 2018, the non-binding advisory vote of shareholders supported the compensation of our named Executive Officers by 83% of the votes cast at the meeting. These votes for and against the proposal, together with available feedback from investors, have been and will continue to be considered by the Remuneration Committee in connection with the evaluation of executive compensation.

Competitive Market Analysis

The Remuneration Committee draws on a number of resources to assist in the evaluation of the various components of the Company's executive compensation program. While we do not establish compensation levels based solely on competitive market analysis, pay practices at other companies are a factor that the Remuneration Committee considers in assessing the reasonableness of compensation and ensuring that our compensation practices are competitive in the marketplace.

Our peer companies used in determining compensation actions with respect to 2018 compensation were selected by the Remuneration Committee with the support of Willis Towers Watson, which, since 2015, has been retained to conduct comprehensive reviews of the Company's executive compensation practices.

The Remuneration Committee considered the foregoing analysis in selecting the following 18 publicly-traded peer companies for use in evaluating compensation actions during 2018: ACADIA Pharmaceuticals Inc., Agios Pharmaceuticals Inc., Alder Biopharmaceuticals Inc., Alnylam Pharmaceuticals Inc., bluebird bio Inc., Clovis Oncology, Inc., Intercept Pharmaceuticals Inc., Juno Therapeutics Inc., Neurocrine Biosciences Inc., Pacira Pharmaceuticals Inc., Portola Pharmaceuticals Inc., Puma Biotechnology Inc., Radius Health Inc., Sage Therapeutics Inc., Sarepta Therapeutics Inc., Spark Therapeutics, Inc., Tesaro Inc. and Ultragenyx Pharmaceuticals Inc.

The Remuneration Committee reviews the Company's list of peer companies on an annual basis to reflect changes in market capitalization, acquisitions, developments at the Company relative to its peer companies, and other factors.

Components of Compensation and Target

Executive Directors' remuneration packages are considered annually and for the twelve (12) months ended December 31, 2018 comprised a number of elements, as follows:

(1) **Fixed Elements of Remuneration.** Fixed elements of remuneration, including basic salary and other benefits, were set and paid in accordance with our Remuneration Policy. Any changes to salary will be considered in the context of a number of factors, including the annual peer-based competitive market analysis exercise carried out for the Remuneration Committee by Willis Towers Watson, home-market location, any changes to executive responsibilities since the last review and broader employee increases.

(2) **Short-Term Incentive.** We anticipate that the Remuneration Committee will meet in early 2020 to assess Executive Director performance for the calendar year ended December 31, 2019. Based upon this assessment and in accordance with the Remuneration Policy Report below, the Remuneration Committee may award a cash bonus payment to each Executive Director. The level of award will depend upon the extent of achievement of strategic objectives that were set by the Remuneration Committee in early 2019. These included specific objectives linked to what were considered, at the date that these were established, to be the key value drivers for the business and which included regulatory approval and launch of Epidiolex, clinical development program, pipeline development activities, operational and business development objectives, financial position and equity valuation.

(3) **LTIP.** Long-term incentive awards for the twelve (12) months ended December 31, 2018, determined by the Remuneration Committee in February 2018, were informed by the peer group competitive market analysis data provided to the Remuneration Committee by Willis Towers Watson, and vesting was linked to share price performance and subject to performance objectives linked to value drivers for the business.

The February 2016 LTIP award vested on February 15, 2019. This award was divided at grant into a number of tranches:

- 25% of the awards were in the form of market-priced options, whereby the options have an exercise price equivalent to the market price at market close on the day prior to grant (\$44.64 per ADS). These options become exercisable on the third anniversary of the date of grant.

[Table of Contents](#)

- 50% of the awards were in the form of performance stock options, whereby the options will vest upon the third anniversary of the date of grant subject to certain corporate performance conditions having been achieved, as follows:
 - Vesting of half of the performance stock options occurred upon receipt from FDA of their confirmation of acceptance of an Epidiolex NDA filing.
 - Vesting of half of the performance stock options occurred upon FDA grant of Epidiolex regulatory approval.

100% of these LTIP awards vested on February 15, 2019.

- Finally, 25% of the awards granted in February 2016 were in the form of restricted stock options with a four-year service condition whereby one quarter of the grant vests on each anniversary of grant over a four-year period. The third tranche, equivalent to 25% of this award, vested on February 15, 2019.

(4) Non-Executive Director Fees and Equity-Based Incentives. We do not expect the level of cash-based fees to change during 2019, but we do expect there to be a further grant of equity-based incentives. This grant will be subject to approval by the executive members of the Board of Directors and is likely to be linked to a combination of share price performance and service-based conditions.

The policy table below describes our shareholder-approved Remuneration Policy for Directors and Executive Officers and seeks to explain how each element of the Directors and Executive Officers' remuneration packages operates:

Dr. Knappertz's employment arrangement with Greenwich Biosciences, Inc. provides for a base salary of \$420,000 per annum, a one-time retention bonus of \$79,000 should Dr. Knappertz remain continuously employed by Greenwich Biosciences, Inc. at December 31, 2017, a target bonus of 50% of base salary on such terms and of such amount as approved from time to time by the Remuneration Committee in its sole discretion, plus life assurance coverage, matching contributions of up to 50% of the first 6% contributed by Dr. Knappertz to a 401(k) plan during any pay period, subject to the annual statutory cap of \$9,000 per annum, and company-sponsored medical, dental, vision, life, AD&D and disability benefits.

Dr. Knappertz's terms of employment specify that his employment is "at will" and may be terminated with immediate effect at any time upon giving notice in writing. However, with effect from July 13, 2017, Greenwich Biosciences, Inc. entered into a change in control and severance benefit plan participation agreement with Dr. Knappertz under which in the event Dr. Knappertz is the subject of an involuntary termination, or his service with Greenwich Biosciences, Inc. is otherwise terminated as a result of a change in control of Greenwich Biosciences, Inc. or GW Pharmaceuticals plc, or redundancy, he is entitled to receive between nine and 18 months' base salary (depending on the reason for termination), continued payment of health plan benefits for a period of between nine and 18 months (depending on the reason for termination), and outplacement support. In the event his service is terminated as a result of a change in control of Greenwich Biosciences, Inc. or GW Pharmaceuticals plc, or redundancy, Dr. Knappertz is also entitled to a severance bonus of up to 1.5 times his target bonus (depending on the reason for termination), and the vesting and exercisability of some or all of his unvested equity awards shall be accelerated (depending on the reason for termination). With effect from March 2, 2018, Mr. Knappertz's base salary was revised to \$432,600 per annum. With effect from March 1, 2018, Mr. Knappertz's base salary was revised to \$450,000 per annum.

Clawback Policy

The following clawback policy was implemented with effect from February 5, 2015, applying to future eligible executive incentive grants. The policy provides that certain incentive compensation is recoverable from a Director or Executive Officer, if the Company is required to restate financial statements due to the misconduct of that particular Director or Executive Officer and that misconduct has significantly contributed to the need for the

[Table of Contents](#)

restatement. Generally, eligible incentive grants shall include cash short-term incentive awards and equity-based long-term incentive awards that have been awarded and/or vested based upon achievement of specific financial or operational goals which were deemed to have been achieved but which, following restatement, are considered to no longer have been achieved. To be effective, intention to claw back awards, which have already vested and been exercised, must be notified to the Director or Executive Officer within 24 months of the award having vested. The Remuneration Committee may effect a clawback either through a cash or equity repayment by the individual, or via an adjustment to an outstanding award that is yet to vest or that has vested but is not yet exercised.

Equity Retention Policy

To encourage Directors and Executive Officers to retain a meaningful amount of equity in the Company, the following equity retention policy for Director and Executive Officers took effect from February 5, 2015. The purpose of this policy is to encourage ownership of the Company's shares, promote alignment of the long-term interests of the Director and Executive Officers with those of our shareholders, and promote our commitment to sound corporate governance. The policy is applicable to our Director and Executive Officers and certain other members of our leadership team, as nominated by our Chief Executive Officer. Under the policy, covered Directors and officers must retain an agreed proportion of each new equity grant issued to them after January 1, 2015, subject to the payment of any applicable taxes, for a period of five years from vesting until an overall level of share ownership is achieved. The target level of ownership equates to four times the basic salary for the Chief Executive Officer and two times the basic salary (or non-executive director's annual cash-based fees) for the other directors and officers. The target deadline for achieving the ownership requirement is intended to be five years from implementation of the policy. Existing shareholdings or direct purchases of equity by executives shall contribute towards attainment of the targeted shareholding cap. The committee retains the power to consider an individual ineligible for future equity incentive grants if the required target has not been achieved in a timely manner, subject to the consideration of individual circumstances.

Tax Deductibility

Prior to the Tax Cuts and Jobs Act signed into U.S. law in December 2017 (the "TCJA"), Section 162(m) of the Internal Revenue Code of 1986, as amended (the "Code"), generally limited the U.S. federal corporate income tax deduction for compensation paid to a corporation's CEO and its three other most highly compensated executives (other than the CFO) to \$1.0 million annually, unless certain requirements were satisfied. The TCJA contained significant changes to Section 162(m) of the Code, including the elimination of the performance-based compensation exception to Section 162(m) for corporate tax years beginning after December 31, 2017 and an expansion of employees covered by the provision. Section 162(m) now covers the CFO or any individual who served as the CFO in the relevant taxable year. In addition, once an individual becomes a "covered employee" under Section 162(m) for any taxable year beginning after December 31, 2016, this status carries forward to all future years, even in the event of the employee's termination or death. The TCJA provides limited transition relief for certain "performance-based" compensation, specifying that compensation payable pursuant to a written binding contract which was in effect on November 2, 2017 and which was not modified in any material respect on or after that date is "grandfathered" (i.e., remains eligible for the "performance-based" pay exception to Section 162(m) and, to the extent such exception is satisfied, such compensation remains deductible even if in excess of \$1.0 million).

As a foreign private issuer, Section 162(m) did not apply to us prior to October 1, 2018. In addition, several of our executive officers who are covered employees for purposes of Section 162(m) perform their services primarily in the United Kingdom, and, as a result, our deduction for their compensation is not limited by Section 162(m). Because of these two factors, the \$1.0 million compensation deduction limitation of Section 162(m) and its exception to the \$1.0 million deduction limitation for performance-based compensation have not been significant considerations for us when designing and implementing our executive officers' compensation program in prior years and will not be significant considerations in future years, and even to the

[Table of Contents](#)

extent deductibility is a consideration, it will not be the sole factor used in determining levels or methods of compensation. Since our compensation objectives may not always be consistent with the requirements for full deductibility, we and our subsidiaries may enter into compensation arrangements under which payments would not be deductible under Section 162(m).

We believe that under the TCJA transition relief for “performance-based” compensation, amounts that may become payable to our executive officers who are covered employees in respect of incentive compensation awards granted to them prior to November 2, 2017 may be grandfathered and, therefore, not subject to Section 162(m)’s \$1.0 million deduction limitation. However, we will continue to evaluate whether the TCJA transition relief for “performance-based” compensation is available in light of recently issued guidance from the Internal Revenue Service and any subsequent guidance that may be issued. In addition, some of the foregoing incentive compensation that may become payable to our executive officers who are covered employees may be deductible on our United Kingdom tax return, and therefore, not limited by Section 162(m) in any event.

General Discretions Relating to the Operation of Incentive Plans

The Remuneration Committee will operate all incentive plans in accordance with LTIP rules and will retain full discretion over a number of areas relating to the operation and administration of these plans. This includes, but is not limited to, determining eligibility, setting performance conditions, determining the extent to which performance conditions are achieved, terms for leaving the Company and the vehicle of delivery.

Approach to Recruitment Remuneration

The remuneration package for a new director or executive officer, including basic salary, benefits, pension, annual bonus/short-term incentive and long-term incentive awards, will be set in accordance with the terms of the Company’s prevailing approved Remuneration Policy at the time of appointment. The Remuneration Committee will consider the role, responsibility and experience of the candidate and will seek independent advice and market data to help derive an appropriate level of remuneration in order to secure the right candidate with the required skills and experience for the role. To facilitate recruitment, the Remuneration Committee may offer additional cash and/or share-based remuneration to take account of, and compensate for, remuneration that the director is required to relinquish when leaving a former employer. Any such offer would take into account the nature, time horizon and performance conditions attached to any such remuneration and would seek to offer no more than the potential value of the remuneration opportunity being relinquished. For an internal executive director appointment, any variable pay element awarded in respect of the prior role will be allowed to pay out according to its terms. In addition, any other contractual remuneration obligations existing prior to appointment may continue. For external and internal appointments, the Remuneration Committee may agree that the Company will provide reasonable relocation support. In all cases, the Remuneration Committee will ensure that decisions made are in the best interests of the Company. The remuneration for any non-executive appointments will be set in accordance with the prevailing Remuneration Policy. Typically, the first grant of equity-based incentive awards made after appointment of a new non-executive to the Board of Directors will be increased by 50%. No additional cash payments will usually be made.

U.S. Domestic Issuer Status

Effective October 1, 2018, we began filing periodic reports with the SEC as a U.S. domestic issuer, after we determined that, as of March 31, 2018, we no longer qualified as a foreign private issuer under SEC rules. As a U.S. domestic issuer, we must now make our SEC filings under the rules applicable to U.S. domestic issuers, and must include certain disclosures that were not previously required, including this Compensation Discussion and Analysis.

- (1) The value of the accelerated vesting of options equals the difference (if positive) between the option exercise price and the closing price per share of our ADSs on December 31, 2018 (\$97.39), multiplied by the number of shares that would have been accelerated upon a termination occurring on December 31, 2018.
- (2) Treatment of acceleration of options is subject to Remuneration Committee discretion. The disclosure assumes full vesting of all options.

2018 Pay Ratio

Pursuant to a mandate of the Dodd-Frank Wall Street Reform and Consumer Protection Act, the SEC adopted a rule requiring annual disclosure of the ratio of the median employee's total annual compensation to the total annual compensation of the principal executive officer ("PEO"). The PEO of our Company is Justin Gover, our Chief Executive Officer.

We believe that our compensation philosophy must be consistent and internally equitable to motivate our employees to create shareholder value. The purpose of the new required disclosure is to provide a measure of pay equity within the organization. We are committed to internal pay equity, and our Remuneration Committee monitors the relationship between the pay our PEO receives and the pay our non-executive employees receive.

As illustrated in the table below, our PEO to median employee pay ratio for the twelve (12) months ended December 31, 2018 was approximately 62:1.

PEO Compensation	\$ 5,681,411
Median Employee Compensation	\$ 91,399
Ratio of PEO to Median Employee Compensation	62:1

We identified the median employee using annualized base salary and salary allowances at December 31, 2018 and bonus potential to be earned during the twelve (12) months ended December 31, 2018. Equity awards were excluded from the calculation of determining the median employee due to the high volume of staff who had joined our Company during the twelve (12) months ended December 31, 2018. Equity awards were then added to the median employee pay to ensure comparability with the PEO.

The pay ratio reported above is a reasonable estimate calculated in a manner consistent with SEC rules, based on our internal records and the methodology described above. The SEC rules for identifying the median

compensated employee allow companies to adopt a variety of methodologies, to apply certain exclusions and to make reasonable estimates and assumptions that reflect their employee populations and compensation practices. Accordingly, the pay ratio reported by other companies may not be comparable to the pay ratio reported above, as other companies have different employee populations and compensation practices and may use different methodologies, exclusions, estimates and assumptions in calculating their own pay ratios.

Non-Employee Director Compensation

The policy table below describes the Remuneration Policy for non-executive directors and seeks to explain how each element of the non-executive directors' remuneration packages operates:

Fees can be paid in the form of cash or shares to be held until the individual retires from the Board of Directors. Any element of fees paid in the form of shares will not be subject to performance conditions The non-executive Directors do not receive any pension from the Company, nor do they participate in any performance-related incentive plans. AUDIT COMMITTEE REPORT

The Audit Committee oversees the accounting and financial reporting processes of the Company and the audits of the Company's financial statements, evaluates auditor performance, manages relations with the Company's independent registered public accounting firm and evaluates policies and procedures relating to internal control systems. The Audit Committee operates under a written Audit Committee charter that has been adopted by the Board of Directors. All members of the Audit Committee currently meet the independence and qualification standards for Audit Committee membership set forth in the listing standards provided by Nasdaq and the SEC, and the Board of Directors has determined that James Noble is an "audit committee financial expert," as the SEC has defined that term in Item 407 of Regulation S-K.

The Audit Committee members are not professional accountants or auditors. The members' functions are not intended to duplicate or to certify the activities of management and the independent registered public accounting firm. The Audit Committee serves a board-level oversight role in which it provides advice, counsel and direction to management and the auditors on the basis of the information it receives, discussions with management and the auditors, and the experience of the Audit Committee's members in business, financial and accounting matters.

The Audit Committee oversees the Company's financial reporting process on behalf of the Board of Directors. The Company's management has the primary responsibility for the financial statements and reporting process, including the Company's system of internal controls. In fulfilling its oversight responsibilities, the Audit Committee reviewed with management the audited financial statements included in the Annual Report on Form 10-KT for the three months ended December 31, 2018. This review included a discussion of the quality and the acceptability of the Company's financial reporting, including the nature and extent of disclosures in the financial statements and the accompanying notes. The Audit Committee also reviewed the progress and results of the testing of the design and effectiveness of its internal controls over financial reporting pursuant to Section 404 of the Sarbanes-Oxley Act of 2002.

The Audit Committee also reviewed with Deloitte & Touche LLP ("Deloitte U.S."), our independent registered public accounting firm, which is responsible for expressing an opinion on the conformity of the audited financial statements with accounting principles generally accepted in the United States of America, their judgments as to the quality and the acceptability of the Company's financial reporting and such other matters as are required to be discussed with the Audit Committee by Public Company Accounting Oversight Board ("PCAOB") AU380, *Communications with Audit Committees*, and SEC Regulation S-X Rule 207, *Communication with Audit Committees*.

The Audit Committee has received the written disclosures and the letter from Deloitte U.S. required by the applicable requirements of the PCAOB regarding communications with the audit committee concerning independence. The Audit Committee has discussed with Deloitte U.S. its independence from management and the Company.

In addition to the matters specified above, the Audit Committee discussed with Deloitte U.S. the overall scope, plans and estimated costs of their audit. The Audit Committee met with Deloitte U.S. periodically, with and without management present, to discuss the results of Deloitte U.S.'s examinations, the overall quality of the Company's financial reporting and Deloitte U.S.'s reviews of the quarterly financial statements, and drafts of the quarterly and annual reports.

[Table of Contents](#)

In reliance on the reviews and discussions referred to above, and subject to the limitations of the Audit Committee's role and responsibilities referred to above and in the Audit Committee charter, the Audit Committee recommended to the Board of Directors that the Company's audited financial statements should be included in the Company's Annual Report on Form 10-KT for the three months ended December 31, 2018.

shareholders representing at least 5% of our paid-up shares entitled to vote at a general meeting. The U.K. Companies Act 2006 generally prohibits shareholders of a U.K. public limited company from passing written resolutions. However, significant shareholders would, in any case, still have the power to call a general meeting and propose resolutions. These provisions are mandatory under the U.K. Companies Act 2006 and cannot be waived by our shareholders.

Shareholder Proposals

Pursuant to Rule 14a-8 under the Exchange Act of 1934, as amended, shareholder proposals intended to be included in the 2020 Annual General Meeting proxy materials must be received by the Secretary of the Company at the Office of the Company Secretary, Sovereign House, Vision Park, Chivers Way, Histon, Cambridge, CB24 9BZ, United Kingdom, no later than December 21, 2019, or otherwise as permitted by applicable law; *provided, however*, that if the 2020 Annual General Meeting date is advanced or delayed by more than 30 days from the anniversary date of the 2019 Annual General Meeting, then shareholders must submit proposals within a reasonable time before the Company begins to print and send its proxy materials. Proposals received after this timeframe will not be included in the Company's proxy materials for the 2020 Annual General Meeting. The form and substance of these proposals must satisfy the requirements established by the Company's Articles, the Nominating and Governance Committee charter and the SEC, and the timing for the submission of any such proposals may be subject to change as a result of changes in SEC rules and regulations.

Under section 338 of the U.K. Companies Act 2006, shareholders representing at least 5% of holders entitled to vote on a resolution at an annual general meeting may require the Company to include such resolution in its notice of an Annual General Meeting. Provided the applicable thresholds are met, notice of the resolution must be received by the Company at the Office of the Company Secretary, Sovereign House, Vision Park, Chivers Way, Histon, Cambridge, CB24 9BZ, United Kingdom at least six weeks prior to the date of the annual general meeting, or, if later, at the time notice of the annual general meeting is delivered to shareholders.

Additionally, shareholders who intend to nominate a director to be elected at the 2020 Annual General Meeting must provide the Secretary of the Company with written notice of such nomination between 7 and 42 days prior to the date of such meeting, together with written notice signed by the director nominee regarding his or her willingness to be elected. Any shareholder seeking to recommend a director candidate or any director candidate who wishes to be considered by the Nominations and Governance Committee, the committee that recommends a slate of nominees to the Board for election at each annual general meeting, must also provide the Secretary of the Company with: the name and address of the shareholder seeking to recommend a director candidate; a representation that the shareholder is a record holder of the Company's securities (or, if the shareholder is not a record holder, evidence of ownership in accordance with Rule 14a-8(b)(2) of the Exchange Act); the name, age, business and residential address, educational background, current principal occupation or employment for the preceding five full fiscal years of the proposed director candidate; a description of the qualifications and background of the proposed director candidate, which addresses the minimum qualifications and other criteria for Board membership approved by the Board from time to time; a description of all arrangements or understandings between the shareholder and the proposed director candidate; the consent of the proposed director candidate to be named in the proxy statement relating to the Company's annual general meeting and to serve as a director if elected at such annual general meeting; and any other information regarding the proposed director candidate that is required to be included in a proxy statement filed pursuant to SEC rules, if then required. ANNEX A TO PROXY STATEMENT

Directors' Remuneration Report

The information provided in this part of the Directors' Remuneration Report is not subject to audit.

Remuneration Committee Chairman's Annual Statement

Dear Shareholder

On behalf of the Board I am pleased to present the Remuneration Committee's report for the fifteen-month period ended 31 December 2018.

I would like to take this opportunity to provide you with an overview of the Remuneration Committee's major decisions taken during 2018, together with the context in which these decisions were taken.

We were pleased to receive a high level of shareholder voting support at the Annual General Meeting ("AGM") in March 2018, with over 83% of proxy voting in support of the resolution to adopt the 2017 Remuneration Report, and over 81% of shareholders supported the approval of the revised Directors' Remuneration Policy.

Context of the Committee's Decisions in 2018

2018 has been a year of significant progress with execution of the Board's strategy. The launch of Epidiolex® in the United States in November 2018, following approval from the Food and Drug Administration ("FDA") in June 2018 was a pivotal event in the history of the Company. The Board continue to work on preparations for Epidiolex approval and launch in Europe, with an approval decision expected in mid-2019.

Looking forwards, we are clear that the primary objective for the year ahead is to execute a successful U.S. launch. We believe that we can continue to create shareholder value via successful execution of our commercial strategy whilst continuing to advance the development of our pipeline of other cannabinoid product candidates. It is in this context that the Committee have made our major decisions during 2018.

The Remuneration Committee

In accordance with best practice, the GW Remuneration Committee, consisting of independent non-executive Directors under my Chairmanship, manages the remuneration of the Executive Directors within the framework of the shareholder approved Policy and shareholder approved LTIP option scheme rules.

Our approach to remuneration:

The Group remuneration policy for Executive Directors aims to:

- align the interests of Executive Directors with those of shareholders;
- have regard to the individuals' experience and the nature and complexity of their work in order to pay a competitive salary that attracts and retains management of the highest quality, while avoiding remunerating those Directors more than is necessary;
- link individual remuneration packages to the Group's short-term and long-term performance through the award of incentives via participation in the Group's cash and equity-based incentive schemes;
- provide post-retirement benefits through defined contribution pension schemes; and
- provide employment-related benefits including the provision of life assurance and medical assurance.

I believe that these aims, which remain unchanged from previous years, have been working well, continue to be relevant and provide a firm framework within which future remuneration will be determined. The shareholder approved Policy provides a set of parameters within which we work whilst still allowing the remuneration committee sufficient flexibility to adapt remuneration packages in line with the development of the business.

[Table of Contents](#)

This should allow the Company to attract, retain and motivate Directors and Executive Officers with the skills, talent and motivation to deliver upon our strategy and to continue to create value for our shareholders.

Key Remuneration Committee Activities in 2018:

During 2018 the Remuneration Committee's key activities have been as follows:

- At the start of the 2018 financial year, we engaged Willis Towers Watson as independent advisers to benchmark the remuneration of the Directors against the selected peer group and to provide recommendations for basic salaries, Long Term Incentive Plan ("LTIP") awards and the structure of bonus incentive awards for the year. As the Company continues to grow in size and complexity, the Remuneration Committee requested that Willis Towers Watson reviewed the peer group of comparable U.S.-listed biotech/pharmaceutical development companies. The current peer group consists of *ACADIA Pharmaceuticals Inc.*, *Agios Pharmaceuticals Inc.*, *Alder Biopharmaceuticals Inc.*, *Alynham Pharmaceuticals Inc.*, *bluebird bio Inc.*, *Clovis Oncology, Inc.*, *Intercept Pharmaceuticals Inc.*, *Juno Therapeutics Inc.*, *Neurocrine Biosciences Inc.*, *Pacira Pharmaceuticals Inc.*, *Portola Pharmaceuticals Inc.*, *Puma Biotechnology Inc.*, *Radius Health Inc.*, *Sage Therapeutics Inc.*, *Sarepta Therapeutics Inc.*, *Spark Therapeutics, Inc.*, *Tesaro Inc.* and *Ultragenyx Pharmaceuticals Inc.* Willis Towers Watson received \$31,805 in compensation for their work relating to Directors' remuneration advice.
- In February 2018, the Remuneration Committee met to consider the basic salary increases to be awarded to Executive Officers. Inflationary increases had been given to the majority of our staff and the Executive Directors were given an inflationary basic salary increase of 3% effective from 1 January 2018. External benchmarking analysis for the Chief Executive Officer and Chief Financial Officer were below the median of peer group data. The Remuneration Committee approved an increase in the Chief Executive Officer's basic salary to \$600,000 and the Chief Financial Officer's basic salary to \$400,000 effective from 1 March 2018.
- At the same time, the Remuneration Committee met to consider the extent of achievement of 2017 calendar year objectives by the Executive Team, and to determine the level of short-term bonus incentive award to be paid in respect of the 2017 calendar year. The consensus was that 2017 had been a year of substantial progress with all material objectives having been achieved, well positioning the Company for FDA approval. The consensus reached by the Remuneration Committee was that each member of the Executive Team who had been present throughout all of 2017 should receive a short-term incentive bonus award, in respect of achievements in the 2017 calendar year equivalent to 60% of their 2017 basic salary. Those members of the Executive Team who joined during early 2017, being the Chief Medical Officer, Chief Financial Officer and Chief Legal Officer, were awarded a short-term incentive bonus award based upon 50% of their pro-rata basic salary.
- At the same time, the Remuneration Committee approved the bonus objectives to be achieved by the Executive Directors during 2018. The approved objectives are primarily linked to FDA approval and execution of the Epidiolex U.S. market launch. These were considered by the Remuneration Committee to be the key value drivers for the business and therefore represent the optimum objectives for Executive Team incentive schemes to be based upon in 2018.
- The Remuneration Committee also agreed the terms of the 2018 grant of LTIP awards to the Directors and Executive Officers. These were segmented so that:
 - 50% of the value of the award is linked to specific performance conditions, which must be achieved in the three-year vesting period, with vesting dependent upon U.S approval of Epidiolex by the FDA and commercial launch in the U.S.;
 - 25% of the value of the award is in the form of market-priced share options with a three-year vesting period; and
 - 25% of the value of the award took the form of restricted stock options which vest at the rate of 25% per annum over a four-year vesting period.

The selected performance conditions are required to be achieved in order to trigger vesting of 50% of this award are again considered to be directly linked to key business value drivers creating alignment with shareholders' interests. The restricted stock option element of the award is considered to encourage long-term retention, considered to be a key factor critical to future success, and the market priced options are intended to align the interests of the Executive Directors with shareholders' interests.

At the grant date in February 2018 these awards had expected values at grant equivalent to 575% of basic salary for the Chief Executive Officer, 450% of basic salary for the Executive Chairman, 400% of basic salary for President, North America and Chief Financial Officer, 350% of basic salary for Chief Legal Officer and Chief Operating Officer and 300% for the Chief Medical Officer, and Managing Director, U.K.

- In November 2018, the Remuneration Committee met to consider the state of achievement of 2018 bonus objectives, to consider and approve the re-appointment of Willis Towers Watson as independent remuneration advisers to the committee for 2019 and to initiate a benchmarking/peer group refresh exercise. Finally, the Committee considered the potential impact of the equity incentive award limit contained within the shareholder approved remuneration policy and the potential impact upon the committee's ability to provide market-competitive remuneration packages to the CEO and potential new senior executive officer hires in 2019.

Proposed change to the Remuneration Policy – for approval by shareholders at the Annual General Meeting in June 2019

As a UK registered public company, we are required by the Companies Act to maintain a shareholder approved remuneration policy containing a set of limits within which the Remuneration Committee has discretion to manage Directors' remuneration. The policy was last approved by shareholders at the 2018 Annual General Meeting and has been in use throughout 2018. However, the end of 2018 Peer group refresh and benchmarking exercise conducted on behalf of the committee by our independent adviser, Willis Towers Watson, together with the recruitment activity that we have in progress seeking to appoint a new lead US Commercial Officer, to fill the role that will be vacated by Julian Gangolli upon his retirement in early 2019, have highlighted the fact that the current fixed equity incentive award annual limit, limiting the value of equity incentive awards to a fixed 600% of annual salary, has the potential to frustrate the Committee's ability to maintain a market competitive remuneration package for the Chief Executive Officer and, potentially, the Committee's ability to be able to offer market-competitive remuneration packages that will enable recruitment and retention of the best candidates for senior officer roles. With this in mind, the Committee has consulted with independent advisers and has concluded that it is necessary to seek shareholder approval for a single amendment to the remuneration policy at the 2019 AGM whereby we propose to replace the existing fixed equity incentive limit with a limit that is based on peer group benchmarking data, whereby the value of GW's annual equity incentive awards to Directors and senior officers will not exceed the 75th percentile of peer group data. This is in-line with the approach that is currently taken with the policy limit for basic salary and should give the committee the flexibility needed to maintain market-competitive remuneration incentives structured similarly to those in use by peer group companies.

With the exception of this single change to the equity incentive limit outlined above we are confident that the Remuneration Policy remains appropriate for the business and we intend to seek approval for the amended policy at the forthcoming AGM in June 2019. On the pages that follow we set out the Remuneration Policy that, if approved, will be effective until 2022 unless any changes are required before then. We believe that the Policy set out on the following pages continue to give the Remuneration Committee transparent powers to implement appropriate incentive rewards, in line with U.S. market practice, enabling us to continue to maintain appropriate remuneration for the existing Executive and non-executive Directors as they work to continue the success of the Company.

Long-Term Incentive Awards Granted to the Directors and Executive Officers in 2018

Directors and Executive Officers are awarded LTIPs at the discretion of the Remuneration Committee. Awards are typically calculated with reference to the closing mid-market ordinary share price of the Company's ordinary shares on the day prior to grant. During periods of volatility, the price used to determine award size is determined by reference to the average closing mid-market ordinary share price of the previous five trading days.

Following the completion of the review of the Group's remuneration strategy, the Directors and Executive Officers were awarded options to subscribe for the Company's ordinary shares split into three different types of options:

- market-priced options, whereby the options have an exercise price equivalent to the market price at market close on the day prior to grant;
- performance stock options, whereby the options will vest upon the third anniversary of the date of grant subject to certain corporate performance conditions having been achieved; and
- restricted stock options, whereby the options are subject to a four-year service condition and vesting period. 25% of the options will vest on each anniversary of the date of grant over the four-year period.

In general, the awards may be exercised at any time between the vesting date and the 10th anniversary of the date of grant. Our US-based Directors and Executive Officers will be required to exercise their performance stock and restricted stock options before 15 March of the year following the year of vesting. The exercise price of the performance stock options and restricted stock options is 0.1p per ordinary share, being the par value of the shares. Awards which do not vest at the end of the vesting period will lapse permanently. The Company's share options are traded on NASDAQ as American Depositary Shares ("ADS"), for which twelve ordinary shares equate to one ADS.

The table below sets out the LTIPs awarded in the fifteen-month period to 31 December 2018 to Executive Directors:

The vesting of the above awards is subject to the following performance conditions.

Grant Relating to Executive Directors

25% of the awards are in the form of market-priced options, whereby the options have an exercise price equivalent to the market price at market close on the day prior to grant (\$115.31 per ADS, equivalent to 685.1p per ordinary share). These options become exercisable on the third anniversary of the date of grant. Future gains upon exercise of these options will be linked to the extent of share price growth over the vesting period. The committee consider that this element of the awards will help to ensure continuing alignment between Executive and shareholders' interests. The Black Scholes option pricing model was used to derive the fair values.

50% of the awards are in the form of performance stock options, whereby the options will vest upon the third anniversary of the date of grant subject to certain corporate performance conditions having been achieved.

- (i) half of the share options vested upon U.S approval of Epidiolex by the FDA; and
- (ii) half vest upon commercial launch in the U.S.

The Remuneration Committee considers these particular milestones to be important elements of our agreed strategy and the key value drivers for the business at this time.

25% of the awards are in the form of restricted stock options for UK-based Directors, or restricted stock units for US-based Directors, whereby these options are subject to a four-year service condition and vesting period. 25% of the options will vest on each anniversary of the date of grant over the next four years. US-based Directors' restricted stock units are automatically exercised immediately on successful vesting. The committee consider that this element of the awards should help to ensure retention of our team of Executive Directors, a key factor for GW's future success.

50% of the awards are in the form of market-priced options, whereby the options have an exercise price equivalent to the market price at market close on the day prior to grant (\$134.09 per ADS, equivalent to 821.8p per ordinary share). These options become exercisable on the third anniversary of the date of grant. Future gains upon exercise of these options will be linked to the extent of share price growth over the vesting period. The committee consider that this element of the awards will help to ensure continuing alignment between Executive and shareholders' interests. The Black-Scholes option pricing model was used to derive the fair values.

50% of the awards are in the form of restricted stock options for UK-based Non-Executive Directors, or restricted stock units for US-based Non-Executive Directors, whereby these options are subject to a three-year service condition and vesting period. 33% of the options will vest on each anniversary of the date of grant over the next three years. US-based Directors' restricted stock units are automatically exercised immediately on successful vesting. The committee consider that this element of the awards should help to ensure retention of our team of non-executive Directors, a key factor for GW's future success.

Awards for Catherine Mackey, Alicia Secor and William Waldegrave included an additional joining tranche of market-priced options to reflect the commencement of their appointment to the Board.

In structuring these grants, the Directors were mindful of best practice advice received from Willis Towers Watson whereby the award of options with vesting linked to performance is considered to have the potential to impair the independence of the non-executive members of the Board. It is for this reason that the vesting of awards is not linked to specific future performance conditions.

Table of Contents

The table below shows the percentage change in remuneration of the Chief Executive Officer and the Company's employees as a whole between 2017 and 2018.

	Percentage increase in remuneration in 2018 compared with remuneration in 2017	
	CEO %	All employees %
Basic salary	9	3
Taxable benefits	(48)	33
Short-term incentives	(29)	7

The employee comparator Group comprises employees in the UK and the US. We consider this to be an appropriate comparator Group because it is representative of the Group and the employee populations are well balanced in terms of seniority and demographics. To provide a meaningful comparison of salary increases, a consistent employee comparator Group is used by which the same individuals appear in the 2017 and 2018 Group.

Relative Importance of Spend on Pay

The committee has determined that total expenditure is the most relevant comparator for staff costs of the Group. Dividend distribution and share buy-back comparators have not been included as the Group has no history of such transactions.

The graph below shows the Group actual staff costs as compared to total expenditure for the last two financial years and illustrates the year-on-year growth in both. Staff costs continue to grow faster than total spend as, in addition to headcount growth we have been expanding our manufacturing and commercialisation team headcount in preparation for future commercialisation of Epidiolex®.

Proposed Application of the Remuneration Policy for the Year Ended 31 December 2019

Executive Directors' remuneration packages are considered annually and comprise a number of elements, as follows:

i) Fixed Elements of Remuneration

Fixed elements of remuneration including basic salary, pension contributions and other benefits will be set and paid in accordance with our Remuneration Policy. Any changes to salary will be considered in the context of a

[Table of Contents](#)

number of factors including the annual peer Group based benchmarking exercise carried out for the remuneration committee by Willis Towers Watson, home-market location, any changes to executive responsibilities since the last review and broader employee increases.

ii) Short-Term Incentive

The Remuneration Committee met in February 2019 to assess Director and Executive Officer performance for the calendar year ended 31 December 2018. Based upon this assessment and in accordance with the Remuneration Policy Report below, the Remuneration Committee awarded a cash bonus payment to each Executive Director. Further details will be provided in the 2019 Annual Report.

iii) Long-Term Incentive Plan

The February 2016 LTIP award was scheduled to vest on 15 February 2019. This award was divided at grant into a number of tranches:

- 25% of the awards are in the form of market-priced options, whereby the options have an exercise price equivalent to the market price at market close on the day prior to grant (\$44.64 per ADS). These options become exercisable on the third anniversary of the date of grant.
- 50% of the awards are in the form of performance stock options, whereby the options will vest upon the third anniversary of the date of grant subject to certain corporate performance conditions having been achieved.
 - Vesting of half of the performance stock options will occur upon receipt from FDA of their confirmation of acceptance of an Epidiolex® NDA filing.
 - Vesting of half of the performance stock options will occur upon FDA grant of Epidiolex® regulatory approval.
- 25% of the awards are in the form of restricted stock options whereby these options are subject to a four-year service condition and vesting period. 25% of the options will vest on each anniversary of the date of grant over the next four years.

100% of the LTIP award vested on 15 February 2019.

iv) Non-Executive Director Fees and Equity-Based Incentives

We do not expect the level of cash-based fees to change during 2019 but we do expect there to be a further grant of equity-based incentives. This grant will be subject to approval by the executive members of the Board and is likely to be linked to a combination of share price performance and service-based conditions.

Remuneration Committee Approach to Remuneration Matters

The Remuneration Committee comprises Cabot Brown and Catherine Mackey under the chairmanship of Thomas Lynch.

During the year the Committee received advice from Adam George in his capacity as Company Secretary. The committee also retains Willis Towers Watson to provide ongoing peer group remuneration benchmarking, option valuations and remuneration policy related advice. The committee is satisfied that Willis Towers Watson, signatories of the Remuneration Consultants' Code of Conduct, provides independent and objective advice.

The terms of reference of the Remuneration Committee can be found on the GW website at www.gwpharm.com.

Statement of Voting at Annual General Meeting

The Group is committed to ongoing shareholder dialogue and the remuneration committee takes an active interest in voting outcomes.

Voting at our shareholder meetings is generally conducted by a show of hands by shareholders who are in attendance at the meeting. Such votes have resulted in unanimous approval of the Directors' Remuneration Report at each of the last three AGMs. No votes were withheld.

On 14 March 2018 the Group put the Remuneration Policy to shareholders for approval and at the AGM held on that date, 83.36% of shareholders' proxy votes approved the September 2017 Directors' Remuneration Report.

In the event that we experience significant levels of shareholder votes against any remuneration-related resolutions we will seek to investigate the reasons for such votes and in the event that the remuneration committee consider that changes to the Remuneration Policy are appropriate, we will disclose details of proposed changes in a timely manner.

Remuneration Policy Report

The information provided in this part of the Directors' Remuneration Report is not subject to audit.

The Remuneration Policy has been designed to ensure that Executive Directors are appropriately incentivised and rewarded for their performance, responsibility and experience. The Remuneration Committee aims to ensure that the policy aligns the interests of Directors with those of shareholders.

The Remuneration Policy that follows will be presented to shareholders at the AGM in June 2019 for a binding vote. Following shareholder approval this policy then became effective from the date of the AGM and will remain in use for three years, or until a revised policy is approved by shareholders. There will continue to be an advisory vote on the Directors' Remuneration Report presented to shareholders at the AGM on an annual basis.

For the avoidance of doubt, in approving this Directors' Remuneration Policy, authority is given to the Company to honour any commitments entered into with current or former Directors (such as the payment of a pension or the vesting/exercise of past share awards). Details of any payments to former Directors will be set out in the Annual Report on Remuneration as they arise.

Future Policy Table

The policy table below describes GW’s shareholder-approved Remuneration Policy for Directors and seeks to explain how each element of the Directors’ remuneration packages operates:

Summary Remuneration Policy—Directors

<u>Element of remuneration</u>	<u>Purpose and link to strategy</u>	<u>Operation</u>	<u>Changes to be proposed</u>	<u>Maximum</u>	<u>Performance targets</u>
Salary	Rewards skills and experience and provides the basis for a competitive remuneration package	<p>Salaries will be reviewed annually by reference to market practice and market data, on which the committee receives independent advice, rates of inflation, broader employee increases, the individual’s experience and scope of the role</p> <p>Salaries will be benchmarked against comparable roles in a selected peer group of other US-listed pharmaceutical development companies with similar market capitalisations and/or scale of operational complexity. We typically expect to align salaries with the 50th percentile of peer group comparator data but may vary from this general rule where we consider that special circumstances apply or where recruitment or retention of a particular role is required</p> <p>The Committee may also decide to approve future increases following changes to job responsibilities or to reflect experience within the role</p>	None	Salaries will not exceed the 75th percentile of peer group comparator data for the relevant role. The committee will reference alternative comparator data for roles not widely represented in the core peer group	Not applicable

Notes to the Policy Table

Clawback of incentives: The clawback policy provides that certain incentive compensation is recoverable from a Director if the Company is required to restate financial statements due to the misconduct of that particular Director, and that misconduct has significantly contributed to the need for the restatement. Generally, eligible incentive grants shall include cash short-term incentive awards and equity-based long-term incentive awards that have been awarded and/or vested based upon achievement of specific financial or operational goals which were deemed to have been achieved but which, following restatement, are considered to no longer have been achieved. To be effective, intention to claw back awards which have already vested and been exercised must be notified to the Director within 24 months of the award having vested. The Committee may effect a clawback either through a cash or equity repayment by the individual, or via an adjustment to an outstanding award that is yet to vest or that has vested but is not yet exercised.

Equity retention policy: To encourage executives to retain a meaningful amount of equity in the Company, a retention policy is in effect for Directors and Executive Officers. The purpose of this policy is to encourage ownership of the Company's shares, promote alignment of the long-term interests of the Directors and Executive Officers with those of our shareholders, and promote our commitment to sound corporate governance. The policy is applicable to our Directors and Executive Officers, and certain other members of our leadership team, as nominated by our Chief Executive Officer. Under the policy, covered Directors and officers must retain an agreed proportion of each new equity grant issued to them after 1 January 2015, subject to the payment of any applicable taxes, for a period of five years from vesting until an overall level of share ownership is achieved. The target level of ownership equates to four times basic salary for the Chief Executive Officer and two times basic salary for the other Directors and Officers. The target deadline for achieving the ownership requirement is intended to be five years from implementation of the policy. Existing shareholdings or direct purchases of equity by executives shall contribute towards attainment of the targeted shareholding cap. The committee retains the

power to consider an individual ineligible for future equity incentive grants if the required target has not been achieved in a timely manner, subject to the consideration of individual circumstances.

General discretions relating to the operation of incentive plans: The committee will operate all incentive plans in accordance with Plan Rules and will retain full discretion over a number of areas relating to the operation and administration of these plans. This includes, but is not limited to, determining eligibility, setting performance conditions, determining the extent to which performance conditions are achieved, leaver terms and the vehicle of delivery.

Summary Remuneration Policy—Non-Executive Directors

<u>Element of remuneration</u>	<u>Purpose and link to strategy</u>	<u>Operation</u>	<u>Maximum</u>	<u>Performance targets</u>
Non-executive fees	Reflects time commitments and responsibilities of each role Reflects fees paid by similarly sized companies	The remuneration of the non-executive Directors will be determined by the Board as a whole by reference to market practice and market data, on which the committee receives independent advice, and reflects the individual's experience, scope of the role, time commitment and changes to the job responsibilities Fees typically consist of a basic fee for non-executive Director responsibilities plus incremental fees for additional roles/responsibilities such as chairmanship of Board sub-committees, senior non-executive Director and US representative Director roles Fees can be paid in the form of cash or shares to be held until the individual retires from the Board. Any element of fees paid in the form of shares will not be subject to performance conditions The non-executive Directors do not receive any pension from the Company, nor do they participate in any performance-related incentive plans	The value of individuals' aggregate fees will not exceed the 75th percentile of peer group comparator data	Not applicable

All-Employee Comparison

The following differences exist between the Company's policy for the remuneration of Directors and Executive Officers as set out above and its approach to the payment of employees generally:

- Benefits offered to other employees are consistent with those offered to the Directors and Executive Officers.
- All US-based employees are entitled to a contribution from the Company towards a 401(k) scheme. This is generally at the same level as contributions paid to the personal pension/401(k) schemes of the US-based Executive Director. UK-based employees are entitled to a personal pension scheme contribution equating to 6.67% of basic salary. UK-based directors do not currently receive an employer's pension contribution.
- All employees are able to participate in the LTIP schemes although the size of LTIP awards tends to increase with seniority as there is a greater emphasis on performance-related pay for senior members of staff.
- A lower level of maximum annual bonus/short-term incentive opportunity typically applies to other employees.

Approach to Recruitment Remuneration

The remuneration package for a new Director or Executive Officer, to include basic salary, benefits, pension, annual bonus/short-term incentive and long-term incentive awards, will be set in accordance with the terms of the Company's prevailing approved Remuneration Policy at the time of appointment. The Committee will consider the role, responsibility and experience of the candidate and will seek independent advice and market data to help derive an appropriate level of remuneration in order to secure the right candidate with the required skills and experience for the role.

To facilitate recruitment, the Committee may offer additional cash and/or share-based remuneration to take account of, and compensate for, remuneration that the Director or Executive Officer is required to relinquish when leaving a former employer, or to ensure that a fully market-competitive package is offered to the candidate. Any such offer would take into account the nature, time horizon and performance conditions attached to any waived remuneration.

For an internal Director and Executive Officer appointment, any variable pay element awarded in respect of the prior role will be allowed to pay out according to its terms. In addition, any other contractual remuneration obligations existing prior to appointment may continue.

For external and internal appointments, the committee may agree that the Group will provide reasonable relocation support. In all cases, the committee will ensure that decisions made are in the best interests of the Group.

The remuneration for any non-executive appointments will be set in accordance with the prevailing Remuneration Policy. Typically, the first grant of equity-based incentive awards made after appointment of a new non-executive to the Board will be increased by 50%. No additional cash payments will usually be made.

Service Contracts

It is Group policy that Executive Directors should have contracts with an indefinite term providing for a maximum of 12 months' notice. New appointees to the Board are typically given a six-month notice period which can then be increased to 12 months' notice, at the discretion of the remuneration committee, once the new appointee is considered to be established within their role.

Executive Directors' service contracts, which include details of remuneration, have been filed with the US Securities and Exchange Commission and so are publicly available.

Details of Directors' service contracts are as follows:

<u>Director</u>	<u>Date of contract</u>	<u>Notice period</u>
Executive		
Dr Geoffrey W Guy	March 2013	12 months
Justin Gover	February 2013	12 months
Non-executive		
James Noble	February 2016	3 months
Thomas Lynch	February 2013	3 months
Cabot Brown	January 2016	3 months
Catherine Mackey	December 2017	3 months
Alicia Secor	December 2017	3 months
William Waldegrave	December 2017	3 months

The non-executive Directors have service agreements which are subject to a three-month notice period. Their remuneration is reviewed by the Board annually. In accordance with the Company's Articles of Association, non-executive Directors are included in the requirement that one-third of Directors are subject to retirement by rotation at each AGM. James Noble and Thomas Lynch will be retiring by rotation at the next AGM and, being eligible, they will seek re-election.

Illustrations of the Application of the Remuneration Policy – Performance and Remuneration Scenarios

The following table and graphical illustrations provide an illustration of the potential remuneration for the year ended 31 December 2019 for each of the Directors, computed in accordance with the Remuneration Policy outlined above for each of three performance scenarios, as follows:

The following table and graphs provide an illustration of the potential remuneration. In interpreting these scenarios it is very important to note that it is likely that a significant proportion of future long-term equity incentive grants to the Executive Directors are likely to consist partly of share options which will only have value to the Executive Directors if they are successful in generating share price growth during the vesting period. The Remuneration Committee believes that this approach will align the interests of Executive Directors with those of our shareholders. The face value of equity incentive awards shown in the graphical illustrations below is not therefore indicative of the amount that the Directors will earn from these awards in future, as it is principally the future growth in value of these awards that will generate a financial return for each Director:

Minimum — fixed elements of remuneration	<p>This scenario assumes that the current basic salary for each Director is as per the Remuneration Committee determination in February 2019.</p> <p>The value of benefits receivable for the year ended 31 December 2019 assumed to be equal to the value of benefits received in the year ended 31 December 2018 as set out in the single total figure of remuneration table on page A-4.</p> <p>The pension or 401k contribution receivable by each Director for the year ended 31 December 2018 is assumed to be in line with the current level of contributions.</p> <p>No short-term incentive payment is assumed for any Director. No vesting of long-term equity-based incentives is assumed.</p>
Performance in line with expectations	<p>This scenario is illustrative only and is not expected to be predictive of 2019 remuneration for either of the Executive Directors.</p> <p>Fixed elements of remuneration, as set out above, plus:</p> <p>On-target level of short-term incentive payment, for the Chief Executive Officer, is taken to be 60% of basic salary, being the on-target amount for 2019.</p> <p>The Chairman is no longer entitled to an annual bonus.</p> <p>This scenario assumes the grant of equity-based incentives with a Black-Scholes valuation at grant equivalent to 600% of basic salary to the CEO and 400% for the Chairman. It is then assumed that 50% of these awards will vest. We are required to illustrate the face value of these awards, i.e. where awards consist of market priced option awards, the face value is derived by multiplying the number of options granted by the exercise price. For the purposes of the illustrations below, we have assumed that the face value of options will equate to 160% of the Black-Scholes value. This has been derived by reference to the most recent equity incentive award to the Directors in 2018.</p> <p>No account is taken of share price growth over the vesting period.</p>

Maximum remuneration receivable

This scenario is illustrative only and is not expected to be predictive of 2019 remuneration for either of the Executive Directors.

Fixed elements of remuneration, as set out above, plus:

On-target level of short-term incentive payment, for the Chief Executive Officer, is taken to be 150% of basic salary, being the maximum percentage that can be awarded by the Remuneration Committee.

This scenario assumes the grant to the Chief Executive Officer, of the maximum possible number of equity-based incentives per the above policy, being awards with a Black-Scholes valuation at grant equivalent to 600% of basic salary under the current Remuneration Policy. For the Chairman this equivalent is set at 600% of basic salary.

We are required to illustrate the face value of these awards, i.e. where awards consist of market priced option awards, the face value is derived by multiplying the number of options granted by the exercise price. For the purposes of the illustrations below, we have assumed that the face value of options will equate to 160% of the Black-Scholes value. This has been derived by reference to the most recent equity incentive award to the Directors in 2018. For illustrative purposes, it is then assumed that 100% of these awards will vest.

No account is taken of share price growth over the vesting period.

Operation of the equity retention policy, outlined above, will also mean that Executive Directors may only be able to realise a proportion of the illustrated incentive gains in 2019 as they are likely to be required to retain equity shares acquired under such schemes for an extended period.

Policy for Payments for Loss of Office

The Committee’s approach to payments in the event of termination is to take account of the individual circumstances including the reason for termination, individual performance, contractual obligations and the terms of the LTIPs in which the Director participates. On notice from the Company, the Company will normally continue to pay salary, pension and other benefits during the balance of the notice period while the individual remains an employee. Although the Director employment contracts do not provide for payment in lieu of notice, the remuneration committee may offer payment in lieu of notice if they consider that it is in the best interests of the Company, subject to such payment not exceeding the contractual notice entitlement. The committee may also approve other limited payments in connection with a departure, which may include legal fees connected to the departure, untaken holiday/accrued vacation, out-placement and repatriation.

There is no automatic contractual entitlement to bonus on termination although this may be considered.

Unvested LTIP awards normally lapse although the committee retains the power to determine, in accordance with the good leaver provisions of the LTIP scheme rules, what proportion of unvested awards will be retained and what proportion will lapse. In determining this, the committee will give consideration to the reason for leaving, the extent of achievement of performance conditions at the date of leaving and may decide to time pro-rate awards.

Statement of Consideration of Employment Conditions Elsewhere in the Company

During the annual review of remuneration, the committee considers the remuneration and terms and conditions for the broader employee population when determining the extent of basic salary increases for the Directors. Employees have not been consulted in respect of the design of the Company’s senior executive remuneration policy to date although the committee will keep this under review.

Statement of Shareholder Views

The remuneration committee considers shareholder feedback received in relation to the AGM each year at a meeting immediately following the AGM. This feedback, plus any additional feedback received from shareholders in respect of remuneration matters during the financial year, is then considered as part of the Company’s annual review of remuneration policy.
